ANOTHER YEAR will shortly draw to a close. With it will go many thoughts, hopes, ambitions and opportunities of so many different kinds.

Some take hold of the many opportunities available in the College and so enable their talents and abilities to be developed and made useful. Others are content to be swept along and show no active interest whatsoever. Two, three or four years is a long time, and involves a great deal of expense in staying at an institution such as N.T.C. This expense surely goes both ways for both the department and the student. In return for these years a lifetime of service, pleasure, and perhaps times of anguish will result. But who correctly knows where fortune blows? Some day students of this College will be Masters, Mistresses, Deputy Heads and Heads, some will possibly go even higher in the service. Somewhere along the line a few will pause for a while and perhaps remember where it all began.

I hope that this book of photos will help you to remember.
