Brief Course Description
The Introduction to Biblical languages offers students to gain a foundation for studies in either NT Greek (Koine) or Biblical Hebrew. Students will elect to follow either a Greek or Hebrew track for their studies. The Greek track will be shared with Elementary Greek (GREK1010). A Hebrew track is planned for future years according to demand. Students will learn the alphabet and script of their chosen language, and gain a familiarity with its basic paradigms and grammatical forms. Where necessary, they will learn the grammatical and technical terminology necessary to describe how the language operates. Students will develop a core basic vocabulary.

By the end of the course students should be able to translate simple sentences to and from their chosen language. Students will be well placed to pursue further studies in Greek or Hebrew language in second level theology or classics courses.

**IMPORTANT UNIVERSITY INFORMATION**

**ACADEMIC INTEGRITY**

Academic integrity, honesty, and a respect for knowledge, truth and ethical practices are fundamental to the business of the University. These principles are at the core of all academic endeavour in teaching, learning and research. Dishonest practices contravene academic values, compromise the integrity of research and devalue the quality of learning. To preserve the quality of learning for the individual and others, the University may impose severe sanctions on activities that undermine academic integrity. There are two major categories of academic dishonesty:

**Academic fraud** is a form of academic dishonesty that involves making a false representation to gain an unjust advantage. Without limiting the generality of this definition, it can include:

a) falsification of data;

b) using a substitute person to undertake, in full or part, an examination or other assessment item;

c) reusing one’s own work, or part thereof, that has been submitted previously and counted towards another course (without permission);

d) making contact or colluding with another person, contrary to instructions, during an examination or other assessment item;

e) bringing material or device(s) into an examination or other assessment item other than such as may be specified for that assessment item; and

f) making use of computer software or other material and device(s) during an examination or other assessment item other than such as may be specified for that assessment item.
g) contract cheating or having another writer compete for tender to produce an essay or assignment and then submitting the work as one’s own.

**Plagiarism** is the presentation of the thoughts or works of another as one’s own. University policy prohibits students plagiarising any material under any circumstances. Without limiting the generality of this definition, it may include:

a) copying or paraphrasing material from any source without due acknowledgment;

b) using another person’s ideas without due acknowledgment;

c) collusion or working with others without permission, and presenting the resulting work as though it were completed independently.

**Turnitin** is an electronic text matching system. During assessing any assessment item the University may:

- Reproduce this assessment item and provide a copy to another member of the University; and/or
- Communicate a copy of this assessment item to a text matching service (which may then retain a copy of the item on its database for the purpose of future checking).
- Submit the assessment item to other forms of plagiarism checking
