POST FOR QUEENSLAND MAN

From University News, a newspaper published by the University of Queensland:
"The University of Queensland's loss will be the Newcastle University's gain when Dr. Robert Jordan of the English Department joins that University next year as Professor of the Department of Creative Arts. Dr. Jordan has been instrumental in building the Drama course in the Department of English, and says that it has been a most satisfying experience.

'Drama is a fairly new field in the academic world and it has been a creative exercise working out methodology and incorporating practical work with an intellectual background - it has developed in an oblique way, on a small scale, but the Drama Major is now very popular,' he said.

'Although the course is not seen as an actor's school, quite a few of our students have gone on to the theatre, motivated as much by their own innate desire to be actors as by anything we did for them,' Dr. Jordan remarked. 'But I like to think that we have contributed to theatre audiences in Brisbane.'

Dr. Jordan is looking forward to taking up his position at Newcastle in the Department of Creative Arts, which combines Drama, Music and Fine Arts.

'There will be the same pleasure in creating a course with the added appeal of working in a small department in which I have a chance to know the students,' he said. 'The close proximity of Sydney is also convenient as it is easy to attract guest lecturers or take the students to Sydney.'

The drama course at Queensland University has been attracting more and more students, resulting in a record enrolment of 102 in Drama One this year. Other universities in Australia are also expanding in this direction: apart from Newcastle, the Universities of Adelaide and New England are also developing drama courses."

DR. DONIELA TO ATTEND CONGRESS IN MOSCOW

This month Dr. W.V. Doniela, of the Department of Philosophy, will go to Moscow to give a paper at the plenary session of the Tenth International Hegel Congress. Dr. Doniela received an invitation from the President of the International Hegel Association.

The theme of the Congress is Hegel's Dialectic and some 200 papers will be presented in four concurrent sequences. Dr. Doniela will be in Moscow from 25th to 31st August and the title of his paper will be Movement, Continuity, Contradiction.

Dr. Doniela has been interested in Hegel for several years. In 1966 he participated in the Sixth International Hegel Congress in Prague and in 1973 spent half of his overseas study leave at the Hegel Institute at the University of Ruhr, Bochum, West Germany. He has given papers and published a number of articles on Hegel.

In 1973, thanks to a special allocation, it was possible to acquire, for the University Library, a considerable number of German microfilms, photostats and books to build up the Library's Hegel section (including Philosophical Idealism and some aspects of Marxism). Dr. Doniela said the library now possessed the most extensive collection of this kind in Australia.
Milorad Pavlovic had to resign as Secretary when he ceased being a student at the
university.
Mr. P. Ormonde has been elected as Treasurer of N.U.S.A. succeeding Mr. C. Baker.

REPLACEMENT FOR FILM SERIES

The proposed screenings of Alister Cooke's TV documentary America have, of
necessity, been cancelled by the Department of History, and instead, beginning
on 12th August, a series of films relevant to American history will be shown
in the Drama Theatre on Mondays at 1 o'clock.

NEWS FROM THE S.R.C.

The Students' Representative Council has suggested that the Union, the
Department of Community Programmes and other interested sections of the
University collaborate in the staging of cultural activities on the campus
during the long vacation. The Council recently resolved to make efforts to
organise a meeting on the proposal. It was reported that the Union's
Activities Officer had applied to the Arts Council for financial assistance to
be given for a programme of activities held during the long vacation.

The Council passed a number of resolutions introducing changes in some
procedures for S.R.C. elections. Included is the taking of photographs of all
candidates running for positions and the erection, in the Union in a
prominent place, of a large poster giving information about vacant positions
and the names of candidates and their photographs.

The Council expressed its view that the University's Arts/Drama Theatre should
be managed by a committee comprising the Professor of Drama (Chairman), and a
representative of each of the Departments of English, French, German, Classics,
Community Programmes and two representatives of Newcastle University Students'
Association.

The Council decided to purchase ear plugs for the office staff to use when
"pop" concerts are being staged in the adjacent Southern Cross Lounge.

Mr. Greg Giles has been elected S.R.C. News Editor in an endeavour to
encourage, by his example, student contributions to Opus and University News.

Mr. Kok-Hong Adrian Woo is presently gathering articles written by students,
on behalf of the Council, for incorporation in a proposed "Alternative
Handbook 1975". The Council decided to support this publication after it had
been told that some universities and Colleges of Advanced Education had
"Alternative Handbooks" which were used either as Orientation Handbooks or in
association with Orientation Handbooks. Students are asked to write their
own assessments of various courses so as to assist prospective students to
make decisions about the courses they study. Adrian will be in the S.R.C.
office at lunchtime every day up to the vacation so that he can advise
students in relation to the articles. He said he is most grateful for the
help being given by students.

The Council has completed an 18-page submission seeking an increase of $3 in
the Students' Association fee next year. The submission, which has been
passed on to the Council of the University, states that the activities and
commitments of the Students' Association represent a worthwhile contribution
to the University. This contribution could not be sustained, let alone
improved, in the next three years, if the current fee structure, which includes
an $8 Students' Association fee, were maintained.

The Students' Representative Council declares that one reason for seeking the
fee increase is to pay for the allowances of a full-time President and a
full-time Media Officer. The suggested allowances are $32 a week each-
equivalent to a tertiary education allowance. If the positions were full-time,
pressure on the Student's Association's administration would be relieved and
efficiency in the office increased.

LEGAL STUDIES CLUB'S HAPPENINGS

The Legal Studies Club will hold an end-of-term "grog show" in Room S293

the door.
The Club will stage a "moot", involving Legal Studies students and articled law clerks in a mock trial, in the Mathematics/Classroom Block on 16th September at 7 p.m.

REPORT FROM THE UNION

The Union Board of Management decided on 18th July to commission a French firm of consultants to make an investigation into the Union's catering facilities, commencing early next September.

An election will be conducted soon to fill the vacancy on the Board caused by the resignation of Arts student Mr. T. French-Kennedy, who has been succeeded as Finance Committee member by Mr. R. Griffiths.

The Common Room on Level 2 of the new wing was selected by the Board for use by students as premises for a fruit and vegetable co-operative. The co-operative, if established, will draw its produce from the markets.

Consideration is being given to the relocation of pinball machines and other electro-mechanical games in the room that is now occupied by the Bank of New South Wales. During the next vacation the Bank will transfer to accommodation on Level 2 of the new wing. Vacant premises adjacent to the Bank of N.S.W. are earmarked for a pharmacy. The Board resolved that a music-listening room would be a desirable addition to the facilities available in the Union. It was claimed that enquiries made of other Universities had indicated that the University of Newcastle was alone in lacking music-listening facilities of any consequence.

Members of the House Committee, and interested Board members, were elected to a committee which has the task of initiating preliminary action towards the establishment of music-listening facilities.

The Board was told that certain companies were willing both to instal a Laundromat in the Union at no cost to the Union and offer the Union a reasonable share of the takings. The Board authorised investigations into the establishment of a Laundromat similar to those operated at the University of Sydney and the Flinders University of South Australia.

4 TH PAPER FROM ENVIRONMENTAL STUDIES

Professor C.A. Tisdell, Professor of Economics, is the author of the fourth research paper to be published by the Board of Environmental Studies.

Entitled "The Value of, Demand for and Supply of National Parks - Economic Issue Raised by Recreational Use", the paper concludes with Professor Tisdell's comment that parks and natural environments have a diversity of recreational and other uses and these give rise to social conflicts which cannot be impersonally and efficiently settled by the market system. State invention and planning is called for in the supply of these facilities.

"It is apparent that conservational and recreational Groups have a continuing and socially important political role even when the State accepts the responsibility for provision of parks and the conservation of natural environment".

People interested in the research paper can obtain copies by getting in touch with Mr. F.C. Hawkins, of the Secretary's Division, on Ext. 711.

The aim of the competition is to involve as many persons as possible in mid-week, lunch-hour sporting activity, rather than to promote extra competition for regular sportsmen.

The first game of Ladies' Volleyball will be played on Wednesday, 7th August, at 1 p.m., and, hopefully, this heralds the commencement of regular participation by the fairer sex.

If you would like to participate in any sport contact Stan Barwick on Ext. 601. If you can gather a group of similarly motivated persons and form a team, all the better. Referees are urgently required.
