DEGREE CEREMONIES AT NEWCASTLE

About 700 graduands of the University will receive their degrees and diplomas on April 23 and 30 in three graduation ceremonies in the Great Hall. The Chancellor, Sir Rede Calaghan, will confer degrees on students from the Faculties of Architecture, Economics and Commerce, Mathematics, Engineering, Science, Education and Arts.

The Vice-Chancellor, Professor D.W. George, will deliver the occasional address at the first graduation ceremony.

The Minister for Education in New South Wales, Mr. E.L. Bedford, will deliver the occasional address at the second graduation ceremony.

The Minister for Education in the Commonwealth, Senator J.L. Carrick, will deliver the occasional address at the final graduation ceremony.

The details of the ceremonies:
- Saturday, April 23: 9.15 a.m., Faculties of Architecture, Economics, and Commerce and Mathematics; 11.30 a.m., Faculties of Engineering and Science; 1.45 p.m., Faculties of Science, Arts, and Education.
- Saturday, April 30: 9.30 a.m., Faculties of Business Administration, Economics, and Commerce; 11.30 a.m., Faculties of Medicine, Science, and Arts; 1.30 p.m., Faculties of Arts, Science, and Education.

PUBLIC LECTURE BY FORMER CHINA AMBASSADOR

Dr. Stephen Fitzgerald, Australia's first Ambassador to the People's Republic of China, is to give a public lecture in Newcastle. The lecture, titled China and the World, will be delivered in the Fifth Duncan Theatre, Newcastle C.A.T., on Wednesday, May 4, at 8.15 p.m.

It is being sponsored by the Australian National University through the regional group of the University's Convocation in association with the University of Newcastle Convocation. All people interested in hearing Dr. Fitzgerald's accounts, impressions and views after four years in China are welcome. Wine and cheese will be served after the lecture.

Dr. Fitzgerald rejoined the Australian National University late last year as a Professorial Fellow in Modern Chinese History, shortly after his return from China. He was Ambassador to China for four years, a post to which he was appointed at the age of 34 soon after Australia established diplomatic relations with the People's Republic in 1972.

DEAN BACK AFTER VISIT TO LONDON

Professor David Maddison, Dean of the Faculty of Medicine, recently returned from a 10-day visit to London. The prime purpose of the visit was to stimulate recruitment for the three new Foundation Chairs which the University is currently attempting to fill in Clinical Pharmacology, Pathology and Psychiatry.

Professor Maddison found that the advertisements for these new positions had clearly attracted a great deal of interest. His time was almost fully occupied by interviews with British academics who wished to hear more about the new Medical School and life in Newcastle and in Australia in general before deciding whether they would submit definite applications for the positions. He stated that a good proportion of the academics were clearly most attractive potential candidates who would need to be seriously considered for the positions.

It was hoped that the Chairs will be filled in July this year, but his trip did not imply that the posts would necessarily be filled by British applicants. Although one or more outstanding applicants might well be flown to Newcastle in due course for final appraisals, it was expected that there would be a strong Australian field for each of the Chairs.

Whilst in London Professor Maddison interviewed two candidates for Senior Lectureships in the new Medical School and also had a lengthy discussion with the General Medical Council of Great Britain.

The Council will be required to approve the Medical School's educational programme to allow graduates from the University to gain registration as medical practitioners in Great Britain. Professor Maddison reported that the Council was clearly very interested in the highly innovative programme which the school was developing. The Council's senior members had clearly read the Faculty's working papers with great care and considerable attention to detail. He was very gratified by the obvious manifestations of their support for programmes which broke away from the traditional patterns of medical education.
The point has often been made before that the University does not do enough for the part time student, a former part time student of too many years standing. I am sure that this is true. One of the areas of notable neglect is the lack of social contact available to the part timer. The chance to feel part of a community is just not there, and an evening student’s experience of the University can be a grim and impersonal one.

The Vice Chancellor’s welcome to feel part of a community is just not there. Any start in the right direction might be a timid one.

The first meeting was held on the anniversary of the Sharpeville massacre in South Africa on March 21st, aimed at supporting the No Ties With Apartheid campaign. The next was on March 29th in support of a graduate of Kelvin Grove C.A.E. in Brisbane who has been refused a teaching position by the Queensland Government because of his involvement with a homosexual group on campus. The meeting called for an end to discrimination against teachers on sexual grounds, pointing out the grave civil liberties questions involved and the fact that statistically speaking, male heterosexuality is a far greater threat to the morals of children.

Leo Walsh

---

The 25th Annual General Meeting of the Union was held on Monday 4th April. Activities to date have included courtyard meetings in the Union aimed at involving as many students as possible in the affairs of the Association. The first meeting was held on the anniversary of the Sharpeville massacre in South Africa on March 21st, aimed at supporting the No Ties With Apartheid campaign. The next was on March 29th in support of a graduate of Kelvin Grove C.A.E. in Brisbane who has been refused a teaching position by the Queensland Government because of his involvement with a homosexual group on campus. The meeting called for an end to discrimination against teachers on sexual grounds, pointing out the grave civil liberties questions involved and the fact that statistically speaking, male heterosexuality is a far greater threat to the morals of children.

Leo Walsh

---

The accounts of the Union for last year, as submitted by the Board of Management on March 24th, show that an increased income from functions counter-balanced the loss incurred on student catering.

In 1976 the cost of catering for students rose by $8,000 to $27,000. Income from functions increased from $47,000 in 1975 to $74,000. Bar trading produced an income of $28,000 in 1976.

The accounts will be presented to the Annual General Meeting of the Union on May 5th.

---

Nominations are being called for the following vacancies on the Board of Management:

Eight members elected annually by students of the University and one member who is a graduate of the University.

Nominations must be received up to 10 p.m. on April 12.

The polling place will be the Union Office. Votes will be taken on April 18, 19, 20, 21 and 22 between 10 a.m. and 6.15 p.m.

The successful candidates will join the Board after the Annual General Meeting.

---

The Union will soon have its own disco equipment. In accordance with a decision of the Board on March 24, a unit known as a Colourgram 44 Colour Organ, which switches coloured lights on and off in time with music, will be purchased.

---

It has been established that repairs are necessary in parts of the Union, in particular the roof, which leaks in periods of heavy rain. The Board is seeking a sum adequate for the work to be done in the May vacation.

---

Although no changes have been made in the hours during which services operate in the Union, the building is now open until 8.30 p.m. in the morning. Vending and copying machines can be used from this time.

The stationery shop opens on Tuesday and Wednesday nights from 8.30 p.m. until 6.30 p.m. and the gift and second-hand book shop on Wednesdays until 6.30 p.m.

---

Staff member joins Board

Professor J.B. Biggs, Professor of Education, has accepted an invitation from the Minister for Education (Mr. Bedford) to sit on the Special Board of Teacher Education.
PLAYWRIGHT FROM THE WEST TO RESIDE HERE

Dorothy Hewett, the Australian dramatist and poet who has accepted an invitation to become Writer-in-Residence in the University, has been called "probably the most open and least sparing of all our playwrights, excepting Patrick White".

During a period of residency on the campus commencing in June and lasting for all of second term, she will be free to talk to students, members of staff and local writers. Dorothy Hewett, 52 and a grandmother, received a major literary grant from the Australian Council for the Arts this year. Since then she has been active writing further plays and poetry. It has been claimed that probably five or six years have seen Hewett truly become a playwright.

Critics have called The Chapel Perilous her most impressive play to date. Originally written in 1971 for the new Fortune Theatre at the University of Western Australia, this play was presented by the University of Melbourne's Union Theatre and the Old Tote at Sydney Opera House.

Bon Bons and Roses For Dolly was commissioned by the National Theatre, Perth, and produced at the Playhouse, Perth, and the Cambridge Theatre, Sydney in 1972. Since Bon Bons and Roses For Dolly another play, two musicals and a musical are expected to follow in quick succession and she has completed a book of poetry.

Dorothy Hewett grew up on a wheat farm near Perth. She published her first poems at 17 and going up to the University of Western Australia she formed the Dramatic Society which published the first play. Her most impressive play was commissioned by the National Theatre, Perth, and produced at the Playhouse, Perth, and the Cambridge Theatre, Sydney in 1972.

ASSISTANT PLANNER’S OVERSEA TOUR

Mr. Robert Mcl. Cowdroy, Assistant Planner, leaves after Easter for an eight-week tour of study into “Project Management as an extension of the Architect’s role”. Last year Mr. Cowdroy was awarded the 1982 St. Regis - A.C.I. Sizelkroft Scholarship by the Royal Australian Institute of Architects for research into this subject, which is of considerable and immediate interest to the Profession.

Mr. Cowdroy will initially visit Los Angeles, Logan (Utah), Salt Lake City, and Boston (in the U.S.A.) and Vancouver, Toronto, Hamilton (Ont.) and Montreal (in Canada). He will then visit Dublin and Cork (in Ireland) and London, Cambridge, Edinburgh and Manchester (in the U.K.). These cities and their regions have architecture professions and building industries comparable with our own and, collectively, provide attitudes ranging from relatively conservative to innovative.

Mr. Cowdroy will compare the industrial climates and ethical constraints in which these attitudes have developed and provide a report and recommendation to the R.A.I.A. on his return.

The R.A.I.A., in association with the University of N.S.W., has arranged for Mr. Cowdroy to present his observations in a lecture through Postgraduate Open University in early July and arrangements are being made for similar presentations to the profession in other State capitals.

While travelling, Mr. Cowdroy will also visit a number of university campuses and medical research facilities in connection with his position as Assistant Planner, and involvement in the planning of clinical science facilities for the Medical Faculty.

CITY HAS CONSIDERABLE UNTAPPED POTENTIAL

Professor David L. Frost, who has taken up his appointment to the second Chair in English, says he has the impression of considerable untapped potential in Newcastle.

Professor Frost stated that the University could still draw on local loyalties and it had the opportunity to give a lead culturally and intellectually in many areas where the city itself was ready to move.

“It was the opportunity to be part of a young and developing university which initially drew me to Newcastle, but the city itself is attractive to a literary man: scenically, socially, culturally, there is a surprisingly wide range within a relatively small compass.”

Professor David L. Frost has particular interests in Renaissance Drama and liturgical translations.

Aged 37, he is a member of the Church of England Liturgical Commission in the United Kingdom and has published a lot on the language of the Church’s liturgy since Cranmer’s time. He was a Fellow in English at St. John’s College, Cambridge, and holds the degrees of Bachelor of Arts, Master of Arts and Doctor of Philosophy of that University. During his 10 years at Cambridge he was a University Teaching Officer, and Lecturer, Supervisor and Director of Studies at St. John’s.

He is the author of The School of Shakespeare, The Influence of Shakespeare on English Drama, 1600–1642 in which he questions the view that the Bard was unappreciated in his own day and explores the impact which Shakespeare had on his contemporaries and successors.

Professor Frost is presently editing the dramatic works of Shakespeare’s contemporary, Thomas Middleton, who died in 1627.

St. John’s College awarded him a Senior Research Scholarship in 1975 for a translation project in connection with the Psalms for use both in the 1980 alternative to the Book of Common Prayer and a compendium of new Church of England Services titled “Australia 1977.”
ASSISTANCE IN ENGLISH LANGUAGE

An English Language tutor is available on a limited basis to assist overseas students with any problem they may be experiencing with English.

Mrs. Caroline Laidlow will be in Language Laboratory 1 (AG 29) in the Arts/Administration Building on Mondays and Wednesdays from 1 to 2 p.m. during Term I.

Please call and see her if you need assistance with English.

English Language tapes are also available for private study in the language laboratory during the day in private study hours, every Monday, on Sunday nights at 9 p.m., and on Saturdays and Sundays from 10 a.m. to 4 p.m. (closed over the Easter weekend).

DONATION TO CURRICULUM RESOURCE CENTRE

Mrs. Margaret Shortle has donated her husband David's book collection to the Faculty of Education to be housed as a special collection in the Curriculum Resource Centre. The collection consists of some 700 books concerned primarily with Geography and Geophysics, although including some education books.

David Shortle, who died in Third Term 1976 while visiting Lectioner with the Department of Geography and Geophysics, was a lecturer in Geography Method with the Department from 1971 to the end of 1976.

The Faculty of Education deeply appreciates this generous gesture by Margaret Shortle and welcomes the gift as providing an opportunity to express in a formal way an acknowledgement of the contribution of David Shortle to education.

SNUGS' SEMINARS 1977

SNUGS is the Society for Geography Students of this University. In 1976, the society was very active both with socializing and exploring some issues in today's society. This year, apart from the normal social events, it will be conducting a series of seminars.

The Department would like to acknowledge publicly donations by the Division of National Mapping of two Watts Autostep levels and by the local Surveying firm, Cashmere and Partners, Limited, of one Cooke, Troughton and Sims glass arc theodolite.

The Society for Geography Students of this University.

URANIUM, PHYSICS AND POLITICS

Problems of Uranium Today and Physics and Politics will be the subject matter of a two-part lecture/discussion series to be conducted by the Department of Community Programmes. Professor C.D. Ellyett, Head of the Department of Physics, will be the lecturer.

The venue is theatre 101 and sessions will be held on Wednesday nights at 8 o'clock beginning on April 13. In all the series will run 10 weeks.

Professor Ellyett will put the basic facts of Uranium resource development so that intelligent people can make their own moral and practical judgements.

With practical illustrations, where necessary, he will discuss the mining,usage and disposal of Uranium, their dangers, safeguards and potential, as a physicist dealing in scientific fact.

Professor G. M. Kellerman, Professor of Medical Chemistry, will join Professor Ellyett for the session dealing with radiation and astrology.

In the second part Professor Ellyett will examine and explain the physical and politically underlining major political issues facing all Australians as a direct result of post-war advances in scientific knowledge. Specifically he will consider the use of nuclear fusion, such alternative sources of power as wind, wave, tidal, vegetable and solar energy, environmental pollution and navigation by the Omega System.

DONATION OF SURVEYING EQUIPMENT

The Department of Civil Engineering has received the following donations of serviceable items of used surveying equipment in connection with the implementation of the full Bachelor of Surveying course.

The Department would like to acknowledge publicly donations by the Division of National Mapping of two Watts Autostep levels and by the local Surveying firm, Cashmere and Partners, Limited, of one Cooke, Troughton and Sims glass arc theodolite.

The Hunter District Survey Board has offered its three Telupewo meter MMA 101 units on extended loan and this offer has been gratefully accepted.

These gifts, and the loan, are particularly urgent at the present time, when we are trying to build up our equipment stocks and provide variety in the equipment available to our students.

ASSOC. PROFESSOR A. HERZOG
Acting Head, Department of Civil Engineering.
A HEALTHY MIND AND A HEALTHY BODY

The first women to finish was Belinda Stevens. Stan Barwick was the first home and the first man to finish. S. Tallayebaski, T. Wall and L. Wibberley, constituting Chemical Engineering A, was the winner of the Challenge Section. It is hoped to conduct the next Campus Scamper in two divisions. Both division will be designed for members of the university who wish to keep fit - they will be directed to negotiate the Fitness Trail course. The second will be open to experienced athletes - they will run along the full course which was used on March 28.

The Amenities Office has devised a schedule for this year's Campus Competitions. It is expected that work on the restoration of the floor of the Auchmuty Sports Centre will be completed in time for running in the indoor soccer competition to begin on April 18 and volleyball on April 19. Both indoor soccer and volleyball will be played at lunchtime, the Wednesdays and Tuesdays. Indoor basketball and body building will be conducted in the evenings. Entries can be made at the Amenities Office.

Despite the popularity of the weekly social tennis nights which are presently being conducted by University Tennis Club at the Tennis Courts near No. 1 Oval, further players (members of staff and students) are welcome. The event is held on Thursdays commencing at 7 o'clock.

A HEALTHY BODY

The University's first Campus Scamper was a great success on March 28, when 79 people jogged to achieve fitness. The Medical Officer, Dr. R. Burke, and his Secretary Mrs. J. O'Neill, set an example by running. The Starter was the President of University Athletic Club (Professor G. Tanner) and the President of Newcastle Amateur Athletic Association (Mr. S. Tapner) presented the awards. The course was from the Auchmuty Sports Centre to the Oval and “home” again - roundabout, and approximately four miles.

Pictured in the team from the Faculty of Medicine that won the Vice-Chancellor's trophy for its performance in the Staff Rowing race at the 1976, Aquatic Carnival. The rowers, suitably attired in Doctor's garb, are Mr. J. Finlay, Professor C. Engel, D. Maddison, F. Clarke and B. White and (in foreground) Mr. M. Pullen. This year's carnival will be held at Hammond Park on April 24.
STAFF WILL HELP YOUTH SERVICE

Several members of the University will take a header at Lambton swimming pool on April 16.

Like others who will dive into the pool, they will be sponsored to raise money for Newcastle Youth Service, which helps young people who are in trouble.

University staff members participating in the Pool Plunge are:

- Professors Stephen Leeder and Saxon White (Medicine), Professor Godfrey Tanner (Classics), Professor Brian Anderson and Dr. K. Sahuja (Electrical Engineering) and Mr. Stan Barwick (Amenities).

Professor Alan Carmichael (President, Water Board) and Mrs. Joyce McGinley, former members of staff, will also souse themselves.

Plunging at 11 a.m. will continue most of the day. Apollo and Salt Brown Group will play music. There will be many activities for children.

Members of staff and students who wish to support the Youth Service may send donations to the appropriate individuals before April 10.

EDITORIAL APPOINTMENT

Professor Alan Barcan, Associate Professor in Education, has been appointed editor of the Aquila Journal for the remainder of 1977. He takes over from Professor Leonie Kramer, of Sydney, who retired as editor after the March issue of this magazine.

The remaining five issues for this year will be edited by Dr. Barcan.

Aquilla is published by the Australian Council for Educational Standards, whose offices are in Lygon Street, Melbourne.

JOURNEY BACK TO PEKING MAN

The History Club is sponsoring a trip to the Chinese Exhibition in Sydney on Friday, April 13.

The coach will leave the University at 6 a.m. (turning by 7 p.m.) and the cost is $32 to non-members $3.50.

Admission ($1.80) must be paid by the persons themselves.

Pick-up points: University No. 2 Car Park, the Gulley Line, Broadmeadow, and Charlestown. For information ring Ext. 264, or call at Room ALG 17A.

TICKETS FOR GRADUATION BALLS ON SALE

Tickets for this year’s Graduation Balls are being sold by the Amenities Office.

The cost of tickets is $12 each, which includes supper and a full liquor service.

Tickets may be purchased on week days between noon and 3 p.m. on April 4 and 6. Two Graduation Balls will be held in the Great Hall this year.

The balls will be held on Saturday night, April 23, and on Saturday night, April 30.

The Gold Graduation Ball will be held on Saturday April 23 with The Harbourside Six playing for dancing.

The English-Speaking Union. N.S.W., is inviting applications for the Ruth A. Cummer Scholarship. This scholarship, valued at $1,000, is intended to assist young people who, at the outset of their careers, seek to further their studies outside Australia. Applications will close on May 31st, 1977.

THE GOVERNMENT OF POLAND, through Unesco in Paris is inviting applications for Copernicus Fellowships offered to support postgraduate study in Poland. Fellowships are tenable in the fields of Physics, Mathematics, philosophy, sociology and the History of Science. Benefits include, a maintenance allowance, tuition fees, and medical services.

STAFF APPOINTMENTS

Miss C.J. Bell has commenced duties as Senior Librarian in the Library.

Mrs. P. Falkiner has joined the Department of Economics as Stenographer.

Miss J.C. Hughes has taken up her appointment in the Department of Geography as Tutor.

Mrs. Joyce McGinley has begun her appointment in the Department of Psychology.

Mrs. O. N. Reynolds has joined the Child Care Centre as Infant Nurse.

Mr. K. Walsh has commenced duties as Stenographer in the Department of Mathematics.

Mr. H.A. Bridgman has taken up his appointment as Lecturer in the Department of Geography.

Mr. R.W. Daniel has joined the faculty of Medicine as Director for Educational Technology.

Miss Janet Yonac Mahyuddin, B.A. (N.S.W.), has taken up duties in the Department of English as a Tutor.

LIST OF NON-ACADEMIC POSITIONS UNFILLED AS AT 7TH APRIL, 1977

N4N77 Librery Assistant - Library. Closes 13.4.77

Information and full details may be obtained from the Personnel Department. Extension 518 or 350.

SCHOLARSHIPS, FELLOWSHIPS

The English-Speaking Union, N.S.W. Branch, invites applications for the Ruth A. Cummer Scholarship. This scholarship, valued at $1,000, is intended to assist young people who, at the outset of their careers, seek to further their studies outside Australia. Applications will close on May 31st, 1977.

The Government of Poland, through Unesco in Paris is inviting applications for Copernicus Fellowships offered to support postgraduate study in Poland. Fellowships are tenable in the fields of Physics, Mathematics, philosophy, sociology and the History of Science. Benefits include, a maintenance allowance, tuition fees, and medical services.

ADVERTISEMENTS

FOR SALE

One Heron Sailing Dinghy in good condition. 11' 3" long includes trailer, sails etc. Ready to sail boat for a beginner or father and son team. $400. Contact R. Dear (ext. 200).

Urgent Sale - Merewether.

Large comfortable 3 bedroom family home. Cavity brick and tile, about 20 squares. Fully modernised but with older style arched entry and 10 ft ceilings. Insulated, air conditioned and carpeted. Lounge, sep. dining and 4 sqs. sunroom, study, large modern kitchen and bathroom. Pebble patios and Bar-B.Q. Double block rear entrance, 3 sqs of new garages, car and caravan ports.

Close transport, schools, etc. Reduced to $49,500 for quick sale. Owner may finance. Ext. 787 or 632770.

Holiday House - Investment:

Elevated 2 bedroom cottage, accommodate six plus, car, boat storage below. Second shower and toilet below. Septic. Minimum maintenance per annum and aluminium roof. Only three years old - as new. Flat block looking water at Lenon Tree Passage. $23,500 Ph. 444 or 58-1621.

TREVALLYN, for the architecturally sensitive person. Mellow old brick home with many French doors opening onto verandah. $45,000. Half an hour from Maitland. Lovely old five bedroom brick home. Twenty five acres, newly fenced for sheep. Septic system. Large hayshed. Useful outbuildings. Sydney 82-2727 or 727 27 Ballast Point Road, Birchgrove 2041.

FOR RENT

Lovely terrace house on The Hill, 2 bedrooms, available for rent May 1st - to visit phone 261157 - for particulars write to owner, Miss Jill Johnstone, "Talgarra", 132 Hill Street, Mollong, 2866.
Contemporary Brand new camera: Nikon F2 Photomic, Ford Cortina 69 1600, 90,000 miles. Rego July 1977. Mechanically sound. Good second car $500, contact Ros Medaris Ext. 617 or after hours 751627.

Ring 572924. All black body with cases. Phone Ext. 792 or 51.2225.

Mrs. J. Davis, 10 Cowlishaw Street, Redhead, will be available for typing of reports, theses, essays etc. Ph. 498585.

**THE CREDIT UNION**

One of the Credit Union Directors from the College of Advanced Education, Mr. Wal Pickering, has resigned and his resignation will become effective on April 28. Members interested in taking an active part in the University Credit Union as a Director are invited to write to the Secretary, Bob Richardson (Purchasing Section) or the Chairman, M. E. Edmunds. (Phm. The extension). The growth of the Credit Union has warranted the appointment of an Assistant Secretary. Members interested in assisting in this position should contact the Secretary, Bob Richardson. Purchasing Section. Remuneration would be by way of honorarium. Duties would include taking minutes of monthly Board meetings, sending out to Board members monthly agendas and handling some correspondence.

**DIARY OF EVENTS**

**THURSDAY, APRIL 7**

1 p.m. SMMG's seminar, Room 904, A View of China, Prof. P. Irwin.

**FRIDAY, APRIL 8 to TUESDAY, APRIL 12**

Easter Public Holidays - no University classes.

**WEDNESDAY, APRIL 13**

6 p.m. Combined meeting of Management and Industrial Engineering and Mechanical Engineering Branches of the I.E.M. Speaker Mr. G. Hullwell of the Weapons Research Establishment. Room E902, Engineering Complex.

**FRIDAY, APRIL 14**

1 p.m. SMMG's seminar, Room 904, The Public and Private Lives of a Heritage, speaker Mr. G. McIntyre.

**FRIDAY, APRIL 15**

9 a.m. History Club's excursion to the Chinese Exhibition in Sydney.

2 to 3.30 p.m. Seminar, Department of Civil Engineering, Speaker Mr. V. V. Venay, Reader in Civil Engineering, University of Bombay, India (currently Postdoctoral Research Fellow, School of Highway Engineering, University of New South Wales, Topic, Behaviour of Soils in Repeated Loading, Room E904, Engineering Complex.

**SATURDAY, APRIL 23**

9.15 a.m. Graduation Ceremonies, Great Hall.

**WEDNESDAY, APRIL 27**

5.30 p.m. First Inaugural Lecture, Dr. R. Morgan, Hypertension - A Problem for You. Room to be announced.

**THURSDAY, APRIL 28**

9 a.m. Special seminar, Department of Mechanical Engineering, Speaker, Professor J.A. Duffin, University of Wisconsin, Title, Solar Energy Application, Room E902, Engineering Building.

**SATURDAY, APRIL 30**

10.30 a.m. Graduation Ceremonies, Great Hall.

**WEDNESDAY, MAY 4**

8.15 p.m. Lecture by Dr. Stephen Fitzgerald, China and the World, Griffith Duncan Theatre, Newcastle C.A.

1 p.m. Address by Professor Sir Norman Anderson, of the University of London, to members of staff and students, organised by the Evangelical Union, the Great Hall.

**SATURDAY, MAY 7**

Lunch. Free concert, Great Hall, time Michael Doherty, organ.
