STAFF MEMBERS SHARE CONFERENCE LOAD

Several members of the University's staff are among the organisers of the forthcoming Australian Psychological Society Conference to be held at the University from August 27 to September 1.

The Conference Organising Committee consists of Chairman, Mr. M. Arthur (N.S.W. Health Commission); Organising Secretary, Mr. H.P. Pfister (University); Treasurers, Dr. R.S. Rowe and Dr. J. Miles (Newcastle C.A.E.); Members—Professor J.B. Biggs, Dr. D.C. Finlay, Dr. R.A. Heath, Dr. A. Ivinskis, Dr. N.F. Kafer, Professor J.A. Knots, Dr. J. R. Kirby, Dr. K.R. Mitchell (University), Mrs. V. Newton-John and Mr. A. Turnbull (Health Commission) and Mr. J. McIvor and Mr. E. Manning (Newcastle C.A.E.).

It will be the thirteenth annual conference to be staged by the Society, which has a membership of 3500 people. The participation of people from overseas countries has been encouraged: for example the United States, Britain, Papua New Guinea, Holland and New Zealand.

The conference will offer invited addresses, symposia, conversation hours, presentations of scholarly papers, the Society's annual general meeting, excursions to the Pokolbin vineyards, historic centres of the Hunter Valley, the Region Art Gallery and the William Bowmore Art Museum, and visits to the Special Education Centre at Newcastle and Stockton Hospital.

The Vice-Chancellor and Professor of Psychobiology at The Flinders University of South Australia (Professor Roger Russell) will be admitted to the honorary degree of Doctor of Science in a ceremony in the Drama Theatre on August 31.

MEDICINE GRADUATES

The Dean of the Faculty of Medicine (Professor David Maddison) has received the following communication from the Medical Board of New South Wales: (dated 17th August, 1978).

"Dear Professor Maddison,

The President of the Board, Sir Patrick Kenny, has requested me to reply to your letter dated 10 July, 1978, concerning the recognition of medical graduates from the University of Newcastle.

Consideration has been given to the curriculum and other documents forwarded with your letter. The Board has resolved to advise the Minister for Health that graduates from Newcastle Medical School should be admitted to the register in New South Wales."

The Dean commented that recognition of the Bachelor of Medicine course at Newcastle and its graduates had not been expected until after the first students had commenced.

UKIYOE PAINTINGS

Mr. Rollo Martin has lent the Department of Modern Languages six glass-fronted and wooden-framed ukiyoe paintings on a permanent basis. They are prints of works by Japanese painters of the 18th to 19th centuries. Each would be valued at $20.00. The paintings are mounted on the walls in the Students' Reading Room of the Department, a Language Laboratory and staff offices of the Department.

STUDENT MEMBER OF COUNCIL: CASUAL VACANCY FILLED

Mr. Michael Zammit, an undergraduate in the Faculty of Economics and Commerce has been elected unopposed to the casual vacancy for a student member of Council. Mr. Zammit's term of office will be until December 31, 1978.
LETTERS TO THE EDITOR

I do not know Professor Cranfield; he may well be a great scholar. However, the only evidence in my possession about him is the summary by you of a talk in your issue of August 10th, 1978. This is the only evidence I have to judge by. Perhaps the talk was distorted by summarising it. As it stands however, it shows little proof that a lifelong study of history will encourage understanding, sensitivity, logic, or subtlety in all cases. In fact the summary abounds with superficiality and silly generalisations and its jokes are more worthy of the factory floor than a university. It also shows a puerile preoccupation with sex, at the frilly panties and mammmary gland level. It is also sexist; the general innuendo is not merely that we can draw just sex-objects whose presence relieves the tedium of history lecturing, but headmistresses are represented as silly and girls have "tiny minds" which are compensated for by the magnitude of their secondary sex organs. Of course there are some silly headmistresses and many more silly headmasters, if for no other reason than that the absolute numbers of male principals are much greater than those of their female counterparts. On the evidence of this summary there are also some very silly people around in other walks of life. Not that this evidence was needed; there is plenty all around. As for the headmistress who talks about "intercourse" - the word has 8 definitions in the shorter O.E.D. of which only one is sexual and everyone with a good command of the English language would appreciate this. The headmistress might well reply: Honi soit qui mal y pense.

The infantile mentality which prompts individuals - (presumably, this time, male undergraduates and by definition therefore gigantic minds) - to release a white mouse or to blow a referee's whistle is incredible to anyone brought up in a civilised milieu. I also fail to understand why Professor Cranfield, if he feels it is proper to discuss female bodily characteristics in this way, should not also discuss the physical size of certain parts of the male anatomy: for instance, hairy chests, beer-barrel bellies, etc. and attempt to establish a relationship between the size of male sex organs and the tiny (or gigantic!) minds that go with them. Perhaps some statistics could be included, and statistically significant relationships established! It is surprising what is discovered by this means nowadays! Sapienti sat.

VERA DE RUUVANSHKY O'BYRNE

ELECTION TO ACADEMIC BODY

Professor J.A. Keats, Professor of Psychology since 1965, has been elected a Fellow of the Academy of the Social Sciences in Australia. Professor Keats has been elected along with eight other distinguished scholars from other Australian universities.

VISIT OF CHINESE SCIENTIST

As the University News was going to press news was received that plans had been made for a group of scientists from the People's Republic of China to pay a one-day visit to the Department of Physics. With interpreters, the 20 scientists in the party are scheduled to visit the University on August 23. The visit has been arranged in association with the Chinese Embassy to give the scientists an appreciation of infrared air-borne or satellite thermal remote sensing, a technique being intensively studied by the Department of Physics. Lectures will be given by Dr. R.A. Mitchell, of the Department of Civil Engineering - Mapping with Landsat Imagery, Professor C.D. Ellyett - Airborne Thermal Infrared Techniques and Mr. D.A. Pratt - Thermal Inertia Mapping To Geology and Soil Moisture.

MORE THAN 700 YEAR 11 STUDENTS ATTENDED SPECIAL MATHEMATICS DAYS

More than 700 Year 11 students attended the Special Mathematics Days. They were drawn from secondary schools in Newcastle and the Hunter Valley, including Dungog, Gloucester, Muswellbrook, Scone and Morisset High Schools. Lectures were delivered by Professor Reyn Keats, Professor John Campbell, Dr. Sean McElwaine and Dr. Roger Eggleton, of the Department of Mathematics, and visiting Professor Bill Forbes, Dean of the Faculty of Mathematics at Waterloo University in Canada.

The visiting students were given demonstrations of Mathematics' computer facilities by Mr. B. Cheek and taken through 2NUR-FM's studios by Mr. J. Hill.

The Convenor of the Special Mathematics Days (Dr. Eggleton) stated that his Faculty was grateful for the teachers at secondary schools who had helped to make the event, the first of its type, so successful. He and his colleagues would anticipate that such a special day would be repeated in the future.

YOUNG MATHEMATICIANS

Organisers were delighted by the volume of the responses to invitations to attend the University's first Special Mathematics Days. In fact, they were forced to repeat the special programme of events to cater for all interested students.

The visits (on August 22 and 24) were arranged for Year 11 Mathematics students from regional secondary schools so that they could learn more about career opportunities in mathematics, learn about typical degree structures for studying mathematics in the University, gain an insight into the frontiers in which higher mathematics develops (both real world applications and the development of ideas) and become acquainted with the Faculty's computer facilities.
SIX FILMS TO BE SHOWN OVER WEEKEND

The Union and the Civic Theatre are agencies for tickets for screenings of the 1978 Travelling Film Festival, to take place over the weekend September 8, 9 and 10. Six of the most popular films from the Sydney Film Festival last June will be screened in the Civic Theatre. They are:

Friday - 7:30 pm, That Obscure Object of Desire (France, Director Luis Bunuel) 9:40 pm, Padre Padrone (Italy, Directors, the Taviani Brothers).
Saturday - 5 pm, Elisa My Love (Spain, Director Carlos Saura) 8:15 pm, The American Friend (West Germany, Director Wim Wenders).
Sunday - 5 pm, The Last Supper (Ybubba, Director Tomas S. Ailea) 8:15 pm, The Baker's Bread (W. Germany, Director Erwin Keusch).

A subscription for the weekend's presentation costs $13 (students $10.50). Individual screenings can be attended for $3.50 (students $3). On the Friday night the charge will be $4 (students $3.50).

The Travelling Film Festival will also bring two Australian short films which were finalists in the 1978 Greater Sydney Union Awards. Sonia Hofmann's experimental animated film Letter To A Friend, a joyous place about love. Sonia is a student at the Australian Film and Television School in Sydney.

The second film The Magic Arts, which takes a satirical look at the arts in Australia, is from a director and cartoonist who needs no introduction, Bruce Petty and Suzanne Baker.

CIVIC PLAYHOUSE SEATS BOUGHT BY CONVOCATION

Convocation has subscribed $500 to the Hunter Valley Theatre Company to buy a pair of seats in the company's playhouse.

Work has commenced on the conversion of the Civic Winter-garden in Hunter street, Newcastle to provide a 200-seat playhouse which will be a base for the H.V.T.C. and visiting professional companies. The Warden of Convocation (Mr. B.W. Belfield) said that members of Standing Committee of Convocation were unanimously chosen to support the Hunter Valley Theatre Company's plans because they wanted Newcastle to have full-time professional live theatre and were impressed by the H.V.T.C. Board's new approach to realising this plan.

Standing Committee was aware that graduates formed a sizeable group in the local community and that they also wanted a professional theatre to enrich the cultural experience of the citizens, he said. The donation was an important demonstration of the valuable role of graduates in the community life of Newcastle.

Mr. Griffith Duncan, Chairman of the Building Appeal Committee, stated that the generous support of Convocation for the Playhouse Appeal had been much appreciated by his Committee.

CHRISTOLOGY

The Department of Community Programmes is offering a public lecture/forum on Christology, Recent Trends in Theological Thinking, on September 5 to give clergy and laymen of all denominations the opportunity to hear Professor Stephen Sykes, Professor Sykes, Van Mildert Professor of Divinity in the University of Durham, is making a brief visit to Australia. He is regarded as one of the outstanding younger theologians of the present day. He is the author of Christian Theology Today and co-editor, with J.P. Clayton of Christ, Faith and History. He is well-known for his critical approach to the radical ideas of some sections of an older generation of theological scholars. The visit has been arranged in association with the Anglican Diocese of Newcastle. The public lecture/forum will be held in B01 starting at 8 pm.

AUSTRALIAN-AMERICAN EDUCATIONAL FOUNDATION

1980 AMERICAN FULBRIGHT PROGRAM

Submissions for the award of Fulbright grants to American senior scholars or post-doctoral fellows to undertake research in Australian institutions during 1980, have been invited by the AAEF. Request for submission papers may be made through heads of department to:

The Executive Officer, Australian-American Educational Foundation, P.O. Box 5559, CANBERRA CITY, A.C.T. 2601.

Submissions will not be accepted after October 31, 1978.
COLLABORATION ON WOOL INDUSTRY STUDY

Professor C.A. Tisdell, Dean of the Faculty of Economics and Commerce, and Mr. P.W. McDonald, former Graduate Research Assistant, are co-authors of a book on which interest was shown work on price instability, 1n McDonald, former Graduate months to which investigates price vari-at. They expressed the additional issues as a result of this research. The 240-page book was financed for a grant which took some time to become interested in many programmes for the wool industry. An approach was made to the Australian Wool Secretariat and, although I had some hesitancy since I had no experience in this area, I eventually applied for a grant which took some months to come through. I became interested in many additional issues as a result of this research."

The approach taken by the co-authors is to consider wool in the context of fibre markets as a whole. Even though the main focus of the monograph is on the wool industry, it provides background and other information on the man-made fibre industry and the cotton industry.

The original edition has to date, been favourably reviewed in *Textile Asia*, published in Hong Kong. *The Textile Institute and Industry Digest, Pergamon Press, Oxford*, intends to publish a revised and updated edition next year. *Textile Asia* sells for $8.80 and is available from the Cashiers Office.

UNIVERSITIES IN 2000 AD

At its meeting on July 21, the Council nominated the Chancellor, the Deputy Chancellor, the Vice-Chancellor, the Deputy Chairman of Senate, Professor R. Keats, and the President of the Staff Association. Associate Professor G. Curthoys, to attend a conference of Australian universities in November. They will have as its theme Australian Universities in the Year 2000. One of the principal speakers will be Professor B. Anderson, Professor of Electrical Engineering.

LIST OF UNIVERSITIES

The List of University Institutions in the Commonwealth (Twenty-Second Edition) is now available from the Association of Commonwealth Universities in London. As well as full postal addresses the List gives the personal names of the executive heads of universities and of the officers at whom general enquiries should be addressed. It should be of practical use to those keeping international mailing lists, to admissions officers and others interested in universities abroad. Three hundred institutions are listed.

The A.C.U.'s address is 36 Gordon Avenue, London, England, W1H OPF.

NBN AND UNIVERSITY JOIN HANDS AGAIN

Next year NBN Channel 3 will offer its viewers another series of programmes produced by the University in association with the television station. Whereas the previous collaboration yielded a selection of films on lifestyles, the new co-productions will be connected with research under way at the University.

Mr. B. Jordan, of the Higher Education Research and Services Unit, and Mr. John Hill, Manager of NUR-FM, will work closely with the Director of the University's. Dr. Phillip Lloyd, of NBN's staff. NBN will be responsible for filming, editing and the final editorial content of the programmes. A tentative list of titles and staff members to be involved:

PRIVATE LUNCHEONS IN THE UNION

The Godfrey Tanner Room, found adjacent to the Southern Cross Lounge in the Union, can now be booked at lunchtime for those "special occasions". No charge is made. Given 24 hours' notice, the tables will be set-up as required. Patrons may avail themselves of the normal bar and catering facilities in the Southern Cross Lounge. Mr. Stan Barwick, Secretary-Manager of the Union, says: "Why not try it when your circumstances demand a special lunch? You will be pleasantly surprised."

UNION DINNER- ON AGAIN. FRED DALY TO SPEAK

Mr. Fred Daly is to be the guest speaker for the revived Annual Union Dinner. A member of the House of Representatives for 32 years and Father of the House when he retired in November, 1975, Mr. Daly presently leads a most active public life and because of his talent for telling a story is an excellent after dinner speaker. The Union Dinner will be held in the Wistaria Room of the Union on Friday, September 15 at 7 pm for 7.30 pm. Mr. Daly intends to speak on the characters and incidents that highlighted his 32 years in Parliament.

The Union Board has decided to subsidise student members in the hope that a large number will be encouraged to attend. The cost is $10, or $7.50 for students.

Mr. Daly served in the Whitlam Government as Minister for Administrative Services and

AUSTRALIAN COMPUTER SOCIETY NEWCASTLE CHAPTER

A short while ago, University News noted that members of the University can apply to become members of the Australian Computer Society. ACS has an active branch in Newcastle, which organises monthly meetings usually on the third Wednesday night of the month. The September meeting will be a site visit to NBN 3 to look at Teletext and in October the meeting will discuss the hobby computer scene, complete with a demonstration.

Visitors are always welcome to these meetings, and notices are posted around the University. For further information on the Newcastle Chapter, or ACS generally, you are invited to contact David Blatt (Maths V232, ext. 722).

Leader of the House. He served under 10 Prime Ministers and rubbed shoulders with all the major political figures of the past three decades. He is regarded as a great parliamentary tactician and one of the Labor Government's most effective Ministers. Since his retirement from politics he has won acclaim as an Author, Columnist, Public Speaker, Lecturer, Radio and TV Personality.

Mr. Daly's book From Curtin to Kerr published late in 1977, is Australia's best selling political publication to date. His new book, Australian Politics A-Z is due for release through McMillan on September 18.

STAFF MEMBER'S NEW BOOK

Professor W.F. Pickering, Head of the Department of Chemistry, is the author of a new book on a timely subject, pollution evaluation. Its full title is Pollution Evaluation - The Quantitative Aspects and it has been published by Marcel Dekker of New York. Volume 2 in the company's Environmental Science and Technology Series, the new monograph of 208 pages sells for $16.50. It is described as the only volume available bridging the gap between analytical principles and socially relevant problems. It provides an introduction to the basic science of trace analysis and promotes the concept of critical evaluation.

Odd numbered chapters in the book discuss in general terms the analytical principles, and offer comments on some of the environmental factors requiring consideration. The even numbered chapters outline the fundamental analytical principles of the various techniques discussed in the preceding chapters.

Pollution Evaluation - The Quantitative Aspects is an introductory textbook for undergraduate and graduate students in environmental science or analytical chemistry. In addition, the textbook provides an invaluable scientific foundation for prospective environmental experts who wish to evaluate critically the significance of laboratory findings.

Professor Pickering has also received copies of Spanish and Russian translations of his preceding book, Modern Analytical Chemistry.

PROFESSOR BIGGS' VISIT TO GREAT BRITAIN

Professor John Biggs, Dean of Education, has been invited to present papers at the Fourth International Conference on Higher Education to be held at the University of Lancaster, and the International Conference on Practical Aspects of Memory, to be held at the University of Wales Institute of Science and Technology. He will be away from August 16 to September 12 and, as well, will take the opportunity to discuss his research on student study processes and qualitative aspects of learning and remembering complex material with other colleagues in Great Britain.
Mr. P. Matthews, Manager of the University of Newcastle Branch of the Commonwealth Bank, presents his bank's trophy for the team section of the Campus Scamper to Dick Parbery and Terry Wall. The other member of the winning Engineering team is Mike Elfick.

The winning Mixed Division Volleyball side - representing the Library - Gary Jones, Carolyn Van Leeuwarden, Michael Rabbitt, Fran Ide, Mark Carpenter and Glenda Williams. Fit.-Liet. Howard is pictured handing the trophy to Glenda. Fran Ide was a substitute for Dianne Davis.

**SPORTING NEWS**

Dr. Terry Wall, of the Department of Chemical Engineering, demonstrated his superb fitness by winning the Second Term Campus Scamper on August 4. It was a great triumph by virtue of his defeat of previous Scamper winner, Stan Barwick, in record time, 19 min. 40 secs.

The Commonwealth Bank Team Trophy was won by Engineering 1, represented by Terry Wall, Dick Parbery and Mike Elfick. Placings were:
- **Long Course**
  - First Female Team: Janine Floyd, Jennifer McGee and Rita Campbell.
  - First Male Team: John Kirby, Gerard Guthrie and Dao Cung Nhu.
  - First Female: Janine Floyd.
  - First Male: Gerard Guthrie.

**First Female Team:** Sharon Field, Dianne Atkinson and Dianne Leonard.

**First Male Team:** John Kirby, Gerard Guthrie and Dao Cung Nhu.

**First Female:** Sharon Field.
**First Male:** Gerard Guthrie.

Professor Godfrey Tanner officiated during the event.

**Mixed and Male Division Finals of the Campus Volleyball Competition were contested by Library and Engineering and Engineering 1 and Keep Fit respectively. The ultimate winners were Library (mixed) and Engineering 1 (Male).**

Trophies were presented by Flight-Lieutenant Harry Howard (R.A.A.F. Inter-Services Representative) at the conclusion of the events held in the Auchmuty Sports Centre on August 8.

**The University of Newcastle will be represented in these Inter-Varsity Contests during The August Vacation:**
- Basketball (at A.N.U.),
- Cross Country (at Monash University),
- Orienteering (at the University of N.S.W.),
- Squash (at Monash University) and Table Tennis (at Monash University).

Cricket practice should commence at No. 1 Oval on Saturday, September 9, with trial matches being played against the University of N.S.W. on September 17. Any player wishing to play cricket with the University should contact the Amenities Office, phone 685344 or 685500.

University Rugby Club reached the Semi-finals in all four grades of this season's competition - the only Club in Newcastle to do so. It failed by only 8 points to win the Club Championships. The First Grade Team gained fourth place in the competition by defeating the competition leaders Hamilton in the Final round.

On August 8, 9 and 10 the R.A.A.F., Navy and Army played in the N.S.W. Inter-Service Volleyball competition at the Auchmuty Sports Centre. The standard of play was excellent, with the Navy winning the competition after some exciting games.
A SEMINAR FOR THE COMMUNITY

A group of lecturers from the Faculty of Education presented a seminar for parents and teachers on August 5. Entitled "The Changing Education," the seminar was organized through the Hunter Region Development Committee of the Department of Education. Of the 30 participants, approximately 20 were parents of school-aged children. A small number of principals and teachers also participated. Mr. John Ramsland, who was Chairman, introduced the keynote speaker, Professor John Biggs, and the respondent, Mr. Bob Mackie.

Professor Biggs discussed aspects and implications of the change in emphasis from educational content to process. Mr. Mackie stressed the interdependence of content and process for pupil learning. Other Faculty members, Mr. Phil Moore, Dr. Max Maddock, Mr. Aub. Everett, Dr. John Kirby and Dr. Ross Telfer, led discussion groups and participated in the afternoon in an Any Questions Panel. A colour videotape of parent-teacher interviews was shown before the panel discussion. The seminar concluded with an expression of the view that certain kinds of problems, and suggestions for change, were one thing: producing change was another. It was suggested that further seminars should be held along similar lines.

TWO STAFF MEMBERS FAREWELLED

Colleagues and friends of two members of staff farewelled them on August 18. Mr. D.W.H. (Doug) Mudway, one of the longest serving members of the University's staff, a Senior Laboratory Craftsman in the Department of Architecture, retired after 20 years of service. Mr. S.F. (Fred) Millington, Technical Officer in the Department of Chemistry, was forced to retire because of poor health. His appointment had spanned 10 years.

Mr. Mudway was somewhat pampered, being the recipient of three farewells. He had been attached to the Department of Mechanical Engineering for most of his career and colleagues from there said their goodbyes on August 18. Architecture students organised a function for Mr. Mudway on August 10 and Architecture staff took him to lunch on August 17. Mr. Mudway stated that he had enjoyed his work and had endeavoured to have friendly relations with students; he treated them the same as his own sons. He had also enjoyed helping to establish the Staff Credit Union and serving as a Foundation Director.

Mr. Mudway will have more time now for his favourite pastimes, making furniture and modelling in clay, and will concentrate on making himself useful around his home in Raymond Terrace. No less than 30 members of staff from the Chemistry Building gathered for lunch in the Staff House to bid farewell to Mr. Millington.

STUDENTS RECEIVE BADGES AS SCOUTS

Graeme Sucker, Engineering Student, and David Cant, Civil Engineering (Surv.), have been awarded the Queen's Scout Badge by the Chief Scout in New South Wales, the Governor-General, Sir Zelman Cowen.

The Queen's Scout Badge is awarded not only for technical skills but mainly for the ability and readiness to render skilled service to the Community, as well as being recommended as young men of good character.

Some of those present told University News that Mr. Millington would be much missed because he had always been ready with a friendly smile.

He had experience as a clerical officer at Bramble's and Frederick Ash's before joining the University in 1967 as a Laboratory Assistant. At that time only a few buildings stood on the campus. While the University may now be more impersonal because of its size, Mr. Millington says it has become of age and beautifully developed among the trees.

Mr. Millington hopes that his health problem will be mitigated by retirement. Apart from a possible trip to Lord Howe Island, he plans to settle home in New Lambton to enjoy gardening.

Mr. Mudway is awarded a "long service badge" by the Dean of the Faculty of Engineering (Professor A. Roberts). Photo by courtesy of the Department of Mechanical Engineering.
WHAT TO DO IF . . . .

Recently the Publicity Section was visited by a mouse. Although the girls said he was harmless, in fact they wanted him to go. The University's policy is to exterminate mice, silverfish, white ants and other kinds of vermin in case they overrun the offices. If you are ever plagued in this way, then get in touch with Mr. Real Gates, of the Planner's Division, Ext. 263.

From time to time staff members notice that the lights on vehicles in the car parks have been left on. The owners can be saved the inconvenience of finding their staff members by noting the car's number and 'phoning Mrs. Hardy on Ext. 640 who can identify the owner for you from a computer print-out.

STATE SUPERANNUATION

Representatives of the New South Wales State Superannuation Board will visit the campus on Wednesday, 13th September, 1978 to address staff of the University on the State Superannuation Fund and to answer questions. The meeting will commence at 1.15 p.m. in Lecture Theatre B01. All staff are invited to attend.

PERSONNEL DEPARTMENT.

STAFF

APPOINTMENTS

Miss L.K. Shepherd, Jnr. Child Care Assistant, Community Child Care Centre.
Mrs. C.A. Cranfield, Stenographer, Faculty of Medicine.
Ms J.M. Gatland, Technical Officer, Department of Psychology.

RETIREMENTS

Mr. D.M.A. Mudway, Snr. Laboratory Craftsman, Faculty of Architecture.
Mr. S.F. Millington, Technical Officer, Chemistry.

RESIGNATIONS

Mrs. L.G. Gascoine, Office Assistant, Typist, Secretary's Division.

DIPLOMA IN EDUCATION QUESTIONNAIRE

The Dip. Ed. Course Co-ordinator reports that 129 completed questionnaires were received by the original closing date. Since the total undergraduate population of the University is approximately 3,500 he is of the opinion that there are still some undergraduate students who have not yet completed a copy. In order to give them additional time, he has extended the closing date of the first week of Third Term, i.e. Friday, September 8. Forecasts of probable future enrolments in the Faculty of Education must be based on reasonably reliable figures. Accordingly, a plea is being made to all undergraduate students who have not yet completed one of the yellow questionnaire forms to obtain one, complete it, and send it back to the Department of Education by FRIDAY, SEPTEMBER 8, 1978.

For the convenience of students collection boxes have now been put in the following places:

Student Administration, Arts/Administration building, Geography Foyer, Economics & Commerce Foyer, Engineering Foyer, University Union.

Further copies of the questionnaire form can be obtained from Greg Martin (Ext. 417) Room W239, Education, Psychology, Sociology building.

PAWSEY MEMORIAL LECTURE

N.S.W. Branch of the Australian Institute of Physics is offering the 14th Pawsey Memorial Lecture on September 5 at 8 p.m.

The theme of the lecture will be INTERSCAN and will be given by Dr. J.P. Clancy, of the CSIRO, in the Clancy Auditorium at the University of New South Wales.

SCHOLARSHIPS

Under the Commonwealth Scholarship and Fellowship Plan the Government of Sri Lanka offers post-graduate and undergraduate scholarships to students from other parts of the Commonwealth including Australia. The Scholarships aim at providing opportunities for Commonwealth students normally resident in other countries to pursue advanced courses of research in Sri Lanka. Awards in general are tenable for one or two academic years. They include return transportation expenses and other allowances. Applications will close at this University on 26th August, 1978.

ADVERTISEMENTS
