2NUR-FM OFFICIALLY TO GO ON AIR

At 7.30 p.m. on Friday, March 17, the Chancellor will officially open the University's radio station, 2NUR-FM. The station will broadcast on a frequency of 103.9 MHz from the NBN tower on Mt. Sugarloaf and should give good reception throughout the region which includes Singleton, Nelson Bay and Wyong, as well as the closer centres such as Newcastle, Maitland and Cessnock. Reception outside this area will depend on actual location and equipment.

The station is committed to the presentation of five major categories of programme covering continuing education (such as refresher courses), general education, service (including broadcasts for minority ethnic groups), music and general interest (including drama, poetry, and coverage of local activities). It will take some time to develop the full range of programmes, but before the end of 1978 it is expected that Radio 2NUR-FM will be presenting an interesting and varied service to the Hunter Region.

In the first phase of transmission, which will last for about two months, the station will broadcast from 1 pm to 3.30 pm and from 7 pm to 10.30 pm each Monday to Friday. A major part of the evening programme will be devoted to music including fine music (7.30 - 9 pm) and popular music and jazz (9.30 - 10.30 pm). Music will also be broadcast in the afternoon session. The quality of music broadcasting is greatly enhanced by the use of frequency modulation and the stereo system, so that music lovers in the Valley can expect a new dimension of listening pleasure.

The first segment of each evening (7 to 7.30 pm) has been reserved for special ethnic programmes catering for the major minority groups in the region. The 9 to 9.30 pm session is reserved at present for talks, discussions and magazine programmes. Included will be broadcasts dealing with cultural happenings such as plays, music and art exhibitions, and other events of interest. In order to establish the station on campus, studios were built on the top floor of the Mathematics Building, and provided with excellent equipment. The transmitter was purchased by NBN and leased to the University. The signal is broadcast from the NBN tower on Mt. Sugarloaf.

Members of staff attached to the station have worked extensively in radio. John Hill, the Station Manager, has worked for the ABC as a radio producer and for the BBC. He has also worked in association with NBN Channel 3 as a producer of several television series. Martin Hadlow, the Assistant Manager, has worked for the Armidale station 2ARM-FM and has had broadcasting experience in the U.K., Papua New Guinea, New Zealand and Hong Kong.

Mr. Hill says that he wishes to get some of the best radio programmes available for overseas countries. He has obtained material from the BBC, programmes such as The World of Books, Science Magazine and Profile; in addition tapes are arriving from The Netherlands, Sweden, Japan and France. He also said that the station had started negotiations with Pacifica, or California, which many people regarded as the point of origin of some of the best creative radio being made in America. Radio 2NUR-FM expects to be the first station to broadcast Pacifica programmes in New South Wales. In the early future live interviews, discussions and commentaries on the news will be included. One special feature might be a phone-in programme which will allow members of the public to put questions to people in the news.

Later in 1978 full details of programmes will be published in a monthly programme guide. Initially, however, programmes will be printed in the Newcastle Morning Herald as well as the University News.
NEW ROAD AND PARKING FACILITIES FOR 1978

A new left hand turn lane at the main entrance to the University is nearing completion. It had been hoped that this work would have been completed before the commencement of first term, but rain during the last week has delayed the finishing touches to the work. The left hand turn lane will enable vehicles approaching the University from the west to flow into the University using the western lane of the main entrance driveway without delaying vehicles waiting in Rankin Drive to turn right into the University. These vehicles will be able to make their right hand turn as soon as it is safe to do so and proceed into the University using the eastern lane of the entrance roadway.

No. 3 Car Park

The No. 3 Car Park near Metallurgy has also been extended during the vacation period. It, too, is expected to be completed during the first week of term. This makes provision for an additional 60 cars and will serve the needs of the Faculty of Medicine, Architecture and the Department of Metallurgy. The location of the extension to the north of the Metallurgy Building will also be convenient for users of the Library and the Union by way of the pedestrian footbridge over the ring road linking it with the main campus.

Overflow Area

The existing arrangements will continue in all other parking areas, with provision for overflow parking on the grass along the southern edge of the No. 1 Car Park between it and Rankin Drive. In the past this overflow area has proved adequate to meet occasional peak demands which exceed the combined capacity of the general car parks. The Vice-Principal, Professor A.D. Tweedie, has indicated that car drivers may on occasional need to use car parks a little more distance from their destination but that parking space can usually be found in the No. 1 car park or in the overflow area.

Cars must not be parked in other undeveloped areas of the site or on verges of roads and parking areas.

Give Way

Further warning signs will shortly be erected to draw drivers' attention to the need to give way to pedestrians at various points around the University road system.

Complaints have been made in the past about some drivers who exceed the 35 k.p.h. speed limit applying within the campus and the risk to pedestrians that this excessive speed creates, particularly in the Engineering car park area and around the ring road. The assistance of all car drivers in maintaining safe conditions is requested to avoid the need to introduce other means of controlling excessive speed on the University roads. The attention of all road users is drawn to the University's Traffic Regulations as circulated and published in the University Handbook. Additional copies are available from the Vice-Principal's Secretary, Mrs. S. Smith.

D. D. Morris
UNIVERSITY PLANNER

NO ALTERNATIVE TO S.R.C. ELECTIONS

Janet Hallinan, President-elect, and several other members of the 26th SRC (elected in October last year) are not returning to University this year. Consequently, it is necessary to hold by-elections for positions in the first weeks of term.

Nominations opened for the following positions on Wednesday, March 8. They will close on Wednesday, March 15 at 5 p.m.

PRESIDENT (full time, paid executive member), SECRETARY (executive member), TREASURER (executive member), AUS-SECRETARY (executive member) and WOMEN'S OFFICER.

Nominations are also open for the following faculty representative positions. Nominations as well as Nominators and Seconders must be from the relevant faculty and voting if necessary, will be by members of that faculty.

ENGINEERING REPRESENTATIVE (one), SCIENCE (one), EDUCATION (two), MATHMATICS (one) and MEDICINE (one).

Elections, if necessary, will be held by secret ballot in the SRC Office or Union Foyer on:

FRIDAY, March 17, 9.30 am to 5 p.m.
MONDAY, March 20, 9.30 am to 8 pm
TUESDAY, March 21, 9.30 am to 8 pm, and WEDNESDAY, March 22, 9.30 am to 5 p.m.

PARENTS DAY ARRANGED

More than 400 people are expected to take part in an Orientation forum on Sunday, March 12.

They are parents, spouses and close friends of new first year students who will spend the afternoon in the Great Hall being addressed by senior officers of the University. The parents, spouses and close friends will be welcomed by the Vice-Chancellor (Professor Don George) and told about the administration of the University and University life. A student counsellor will answer questions on the kinds of problems students often have.

After the forum the visitors will be given the opportunity to look over the campus. The special Orientation function has been organised by the Department of Community Programmes.

AWARD DINNER-DANCE IN UNION

As its first presentation for 1978, Convocation will hold a dinner-dance to celebrate the recipient of Convocation's Newton-John Award, Mr. Brian Sunderland, leading Newcastle architect, will receive the award from the Warden of Convocation (Mr. B. W. Relf) in the Union on March 17 at 8 o'clock.

Invitations have been sent to people with Convocation affiliations and members of staff. Some tickets are left. They cost $10 each and can be obtained by telephoning ext. 375.

HELP WANTED FOR STUDENT

A student who suffers from a physical disability is doing first year Psychology, Biology, Chemistry and History. His disability makes it difficult for him to walk and carry books at the same time.

The student would like to make an arrangement with another student, or (preferably) a small group of students, to help him carry notebooks from time to time such as from his car to lectures, or from lecture to lecture. Would anyone who is interested to help, please contact Mr. Philip Tynan on 521842, or if that number does not answer 57141.
GRADUATION 1978

Graduation ceremonies this year will be held over two Saturdays, the same format as last year. The ceremonies will be held in The Great Hall on April 22 and April 29. Degrees in the Faculty of Arts will be conferred on April 22 at 10.30 a.m., in the Faculties of Engineering and Mathematics on April 22 at 9.15 a.m., and in the Faculties of Architecture, Education, Economics and Commerce and Science on April 29 at 11.30 a.m. Graduands will again have priority on purchases of Graduation Ball tickets. The tickets will be conducted in The Great Hall on the nights of the conferring of degrees ceremonies.

Each ball will last from 8 pm to 1 am and music, supper and dancing are provided to guests for $12 a head. The Wattle Graduation Ball will be held on Saturday, April 22, with the jelly roll Band providing the music. The Banksia Graduation Ball will be held on Saturday, April 29. The Node's Levy will provide the music. Each numbered ticket will be restricted to 504. Each table in the hall will hold 14 persons. Mail bookings are now open to graduands. Cheques together with orders for tickets, should be sent to the Secretary of Convocation, C/- the University.

Graduands will have priority on ticket sales until March 29, after which unsold tickets will be available for purchase from the Amenities Office.

FORMER STAFF MEMBER LEAVES US A GIFT

The Staff House is indebted to Associate Professor W.F. Geyl, who has donated a work of art to the University and asked that it hang in the Staff House. Professor Geyl made the donation when he retired on February 28 after a period of 21 years as a member of staff in the Department of Geography.

The work of art is an etching by Louis Kahn called Flight into Egypt. Professor Geyl, who was born in England and lived in Holland for 20 years, said he chose the drawing originally because of its message. "Australia is shown in outline on one of the headlights of 'the carpenter's' jeep, symbolizing it as a haven for refugees from more turbulent areas. We were not refugees, but Australia has been kind to us too," he said.
SPORTING NEWS

University Blues have been awarded to: Ray Armstrong, squash; John Arthur, Rugby League; David Willett, Cricket.

The Annual Blues Dinner will be held at Edward Hall on Friday April 28 at 8 pm.

The programme for sports at the Auchmuty Centre will be as follows. Persons interested in participating are invited to attend, commencing Monday March 13.

Monday, Basketball, 7 to 10 pm.
Tuesday, Badminton, 7.30 to 11 pm.
Wednesday, Volleyball, 7 to 10 pm.
Thursday, Taekwon Do, 7 to 10 pm.
Friday, Badminton, 7.30 to 11 pm.
Saturday, Volleyball, 7 to 11 pm.

In the Inter-Varsity Cricket match at University Oval, Australia University Cricket Club was successful against New England. The scores were: Australia 125, and 61/101, New England 102 and 119.

Anybody interested in joining the University Boat Club (Rowing) can meet at the Aquatic Centre Raymond Terrace on Sunday mornings at 9 am. Instruction will be provided. No experience necessary. All welcome.

The Administration played against the Department of English at No. 2 Oval starting at 4 pm on March 1. Both captains chose one or two players from "affiliated" Departments - for example, Col Whitehead from French, joined English, and Hugh Floyer from Careers, aided Administration. Administration batted first and, thanks to fine innings by Brian Penfold (43) and Darryl Doherty (38), scored 125 in 19 overs. Ross Bennett (4 wickets for 37) surprised with his wily medium-paced bowling. An early onslaught by Administration's fasties was successful until Whitehead and M. Orange held their wickets securely. Whitehead scored 50 and Orange 16. English was 92 when 19 overs were bowled. Bob Swetman took two wickets for seven.

The Badminton Club is looking for members. The University has four excellent badminton courts at the Auchmuty Centre. All equipment, including sandshoes, can be hired.

Badminton is probably the only sport played on campus where men and women participate together both in social and competition games, hence providing an excellent opportunity for meeting one another. Those who have not played the game before, free instructions will be given.

Students and members of staff have been invited to come along to the SPORTS CENTRE on MARCH 14 at 6.30 P.M. The Badminton Club would provide racquets free for the night's play.

Winter training sessions at the University will be held as follows:

No. 1 OVAL
Commemencing March 13
Tuesdays, 5.30 to 8 pm
Men's Hockey
8 to 10.30 pm Women's Hockey

Wednesdays, 5.30 to 8 pm Women's Hockey
8 to 10.30 pm Men's Hockey

Thursdays, 5.30 to 8 pm Women's Hockey
8 to 10.30 pm Soft Ball.

No. 2 OVAL
Commemencing March 6

Mondays, Aussie Rules, 5.30 to 7.30 pm
Soccer 7.30 to 9.30 pm.

Tuesdays, Rugby Union, 5.30 to 8 pm
Rugby League, 8 to 10.30 pm.

Wednesdays, Soccer, 5.30 to 8 pm
Aussie Rules, 8 to 10.30 pm.

Thursdays, Rugby League, 5.30 to 8 pm
Rugby Union, 8 to 10.30 pm.

Fridays, Rugby Union 1st Grade.

STUDY TOUR

In August the Department of Community Programmes will be conducting a one-week study tour of Norfolk Island for people with an interest in convict history.

The tour will be led by Dr. John Turner, author of New Guinea: A Convict Settlement, who is making a special study of Norfolk Island in preparation for the trip.

Norfolk Island, like Newcastle, was a convict settlement before it became the permanent home of the Pitcairn Islanders, the descendants of the crew of the "Bounty" mutineers.

PROFESSOR'S APPOINTMENT TO LEGAL COUNCIL

A University staff member has been appointed to the new Legal Council of the University.

Professor K. E. Lindgren, head of the Department of Legal Studies, has been appointed by the Law Council of Australia and the Australasian Universities Law Education Association. He was selected to join the 12-member Council as a teacher of law in a tertiary course other than a law course. The purpose of the Council is to bring together at the national level those elements involved in, and concerned with, legal education. Its objects are:

- to provide a forum for the exchange of information and ideas on legal education between States and Territories and between and within the teaching and practising components of the legal profession in Australia;
- to fulfil an advisory function in relation to legal education on the Federal and State levels.

The Council proposes, amongst other matters, to examine the questions of career mobility - the means by which academic and government lawyers and those in private practice can interchange their functions - and reciprocity of admission to practice between the States.

AWARD TO SCIENTIST

The annual Pawsey Medal of the Australian Academy of Science has been awarded to Dr. R. Manchester. The medal is awarded to the most outstanding scientist in all the physical sciences in Australia under 35. Dr. Manchester secured first place in the Department of Physics in 1965, 1966 and 1967 in which he did research on the supervision of geomagnetic micropulsations under Professor C. D. Ellyett.

T.E.A.S. OFFICER

Mr. Russell Thorncraft, of the Commonwealth Department of Education, will be available at the University on Thursday, March 29 and Thursday, March 30 (during the day). He will be in Room T29 in the Amenities Building to answer general enquiries relating to the Tertiary Education Assistance Scheme and other Department of Education schemes of student assistance.
MAJOR STORM ON SATURDAY
FEBRUARY 11, 1978

The University was struck by a violent thunderstorm in the mid-afternoon of Saturday, February 11, 1978. Officially recorded wind speeds at Nobbys were up to 140 km/hr, which is well in excess of that normally experienced. Damage to buildings and outdoor construction was fortunately relatively light: one window was broken by hail, while roof damage was limited to flashings and copings; and some damage caused by water intrusion. Four concrete light poles were severely damaged by falling trees. The most obvious damage on the site was to trees and gardens which suffered to an unusual extent. While damage was general across the site, the wind appears to have been concentrated in certain zones which resulted in numerous trees being snapped off 3 to 5 metres above ground level. With the exception of the four light poles, very little damage was caused by these falling trees.

While much of the cleaning up of tree debris will be carried out by the gardening staff, it has been necessary to employ a contractor to remove dangerous limbs from damaged trees adjacent to paths and heavily used areas. Some tree lopping has been necessary to render damaged trees safe where the storm had left unbalanced by the storm. The cost of replacement of shrubs and trees in developed areas is estimated to be approximately $500. Because of the limited funds available for both grounds maintenance and general building maintenance no action has been taken at this stage to replace these shrubs. This work may be carried out progressively during the year depending on the funds available.

One unexpected outcome of the storm was that the Grey Gums which were broken off, enabled a check to be made of their botanical identification. We had previously thought these trees were Eucalyptus punctata, which is common in the Newcastle area. However, fruit and buds collected from the fallen debris by Kevin McDonald of the Newcastle College of Advanced Education, indicates that these trees were the Small Fruited Grey Gum, Eucalyptus prophylla. The dominant tree on the campus, Eucalyptus maculata, (Spotted Gum) and the rough-barked species all seemed to suffer equal damage and it is significant that of the eighty or so trees which were destroyed, less than half a dozen were overturned, the remainder having snapped off. Most of the trees were healthy and the breakage appeared due to the high wind forces rather than some weakness in the individual trees.

I would like to express my thanks to those of staff who came in to the University immediately after the storm and assisted to clear roads and make emergency repairs to render the site safe.

D.D. MORRIS,
UNIVERSITY PLANNER.

BANDICOOTS WANTED

In connection with a research project being conducted by Dr. D.I. Hayman of the Department of Genetics, University of Adelaide, a pair of long nosed and a pair of short nosed bandicoots are required.

Department of Wildlife permission has been granted for the transfer of such animals from New South Wales to South Australia. Anyone who can provide even one bandicoot is requested to contact Professor B. Boettcher, Ext. 566 who will arrange the necessary transport.

SHOW PRIZEWINNER

Miss Pam Kristensen, a typist in the Faculty of Education, won First Prize for a 70 cm. x 140 cm. hooked rug which she exhibited recently in the Newcastle Show.

LIBRARY COMMITTEE OF SENATE SET UP

At its meeting on March 1, 1978 the Senate considered the detailed recommendations in the Report on the Role and Funding Needs of the University Library prepared by Professor K.R. Dutton. The Report had been received by the Senate at its February meeting when a vote of thanks to Professor Dutton for an excellent report had been carried by acclamation. The three main recommendations of the Report were adopted. These were in effect:

1. The general approach to funding will be to set a target of 3% of the total University recurrent budget (excluding any earmarked grants) for library materials;

2. To establish a Library Committee which will include representatives of all faculties and the student body;

3. Monies received by way of fines for the late return of books will in future be earmarked for the purchase of multiple copies of works required by undergraduate students.

A full report will appear in the next edition of University News. Copies of Professor Dutton's report are available from the Secretary's Division at a price of $7.50 each.

STAFF MEMBER AS COAUTHOR

The third edition of Business Law of Australia, coauthored by R.B. Vermeesch and K.E. Lindgren and comprising 850 pages, has just been published by Butterworths. The second edition was published almost five years ago. As the coauthors reveal in the Preface, there have been many and radical changes in the law since then. There has been further erosion of nineteenth century notions of freedom of contract and the doctrine of privity of contract. Substantial legislative changes have been made in the areas of trade practices, consumer protection, company law and securities industry law.

Professor Lindgren who is Head of the Department of Legal Studies wrote this part of this edition while he was on study leave at the University of Cambridge as a Visiting Fellow of the University's Centre of International Studies.
GRADUATE BODY'S NEW VENTURE

Convocation of the University has entered a new field by financing the printing of a slim volume of poems by Donald Moore. "Idols of the Market Place and Other Poems" has been published jointly by Convocation and Nimrod Publications.

Roland Redston, poet, author and critic writes: "The aspirations of this book are those of a considerable poet, Donald Moore, whose influences range from Langland to Larkin, has extended 'The Waste Land' into this consumer-culture, producing a new fission age."

"In ten cantrics, or cycles of poems, the poet moves through, culminating in a whirring, philosophical, to the times. He believes that, in his nuclear-fission, poisoned period, 'the Rough Beast, the King of Glory' shall come in our likeness. He will make us lie down in radium pastures. He will lead us beside the green waters."

"The poet employs a considerable range of forms. A traditionalist, he can break or fracture traditional forms in order to create others which are adequate for, or expensive of, an era of disorientation."

"Coming at the end of these cycles, the three poems entitled 'Holocaust I, II, III' together with the sonnet 'Thoughts on Hiroshima Day', are a climax in which the world does not end with a whimper but with a bang. But these are followed by evocative lyrics in a contemplative mood."

"Idols of the Market Place" is available from the University Bookshop and The Department of Community Programmes for $2.

At Dr. Moore's request any income resulting from the sale will be placed in a fund to make possible other publications. Dr. Moore will give five lectures on "My Kind of Poetry" at the NEA, Union Street, Newcastle, beginning on Wednesday, March 15 at 7.30 p.m. The fee of $7 includes a free copy of "Idols of the Market Place and Other Poems."

THE SOCIOLOGY SOCIETY PRESENTS
A WINE & CHEESE NIGHT
Friday, 17th March, 7.30 p.m. start
THE GLASSHOUSE
ALL WELCOME MEMBERS FREE NON-MEMBERS $1.50

NEW SOUTH WALES STATE SUPERANNUATION FUND

The New South Wales State Superannuation Board recently announced that the Superannuation (Amendment) Act, 1977 has received assent.

A major item contained in the Act is a system of common breakdown and death benefits, which replaces the classification system and the related benefit structure.

Briefly, the new breakdown and death benefits as described by the Board are:

- "When a contributor is retired on the grounds of invalidity he shall be entitled to an appropriate percentage (based on years of Fund membership and explained in the following paragraphs) of the pension benefit payable on normal retirement at age 60 years or later (age 65 or later in the case of a woman contributing for retirement on full pension at that age).

At Fund entry, contributors will have breakdown cover equal to 80% of the normal retirement benefit. This benefit entitlement will increase over the first 10 years of Fund membership by equal percentages to 100%, or over the number of full years to normal retirement, whichever is the shorter period."

The Board is currently distributing literature to all contributors affected by this amendment (i.e. all those in the limited benefit or provisional categories). The amendment may also be of interest to those who are yet to become eligible to apply to become a contributor.

The other items in the Act which may be of interest to contributors relate to the simultaneous death of a contributor and his wife, and the payment of children's pensions to exempt children. All Department Heads have been sent more detailed information on the changes, and as well, some copies are available in the Personnel Department. If, after reading this information you require any further information, please contact Mr. S. Graham on extension 410.

NEW SRC OFFICE

The SRC has moved its office from the old site on level four of the Union Building to the basement of the building underneath the Health Service. The old office area will now be used by the Recreation Organisation for activities and a photographic dark room is to be built in one of the rooms. Students are invited to come down and see the new offices.
POST GRADUATE EDUCATION IN CONFERENCE ON OCCUPATIONAL MANAGEMENT AND ACCOUNTING MEDICINE

The news that Master of Business Administration and Commerce (Accounting) Degrees will be offered in 1978 by the Faculty of Economics and Business at the University of Newcastle has attracted a great deal of interest throughout the Newcastle Region in post-graduate business education at the University.

Even in this time of severe unemployment, a difficult economic situation has had no obvious negative impact on the demand for post-graduate business education and the Faculty reports that there has been a steady stream of enquiries and applications since early in November, 1977. Thirty-five people have been approved for candidature in the M.B.A. They come from a wide range of industry groups and possess a variety of professional backgrounds.

There is a record enrolment of more than 30 new students in the Diploma in Business Studies at the present time, 32. There are two candidates who have doctoral degrees, two who have master's degrees and four who have double bachelor's degrees. Many hold senior positions in management.

There is a record enrolment of more than 30 new students in the Diploma in Business Studies at the present time, 32. There are two candidates who have doctoral degrees, two who have master's degrees and four who have double bachelor's degrees. Many hold senior positions in management.

The Faculty of Medicine at the University and the Health Commission of N.S.W. (Hunter Region) are sponsoring a one-day conference on occupational medicine in the Hunter Region. The conference will be held at Stockton Hospital on March 22 and will be opened by the Minister for Health (The Hon. K.J. Stewart). The conference will be attended by an invited audience, including representatives of major employers and employee groups in the region, as well as staff of the Medical School and medical practitioners with a professional involvement in occupational health.

The aim of the conference is to identify the main health problems that affect people at work and to consider what can be done to combat them. It will focus particularly on those occupations and industries in the region from which most people derive their livelihood.

The newly established Medical School is strongly committed to making a contribution to the improvement of health in the Hunter Region. The holding of this conference should mean the beginning of an effective co-operative effort by the interested organizations, leading to the development of a healthier working environment.

STAFF MEMBER INJURED

Eileen Leask, of the Accounting Department, is in the Mater Misericordiae Hospital after having been seriously injured when hit by a vehicle in Mayfield Shopping Centre. Eileen's friends across the University were very concerned by the accident and look forward to news of her early recovery.

TYPEWRITER WANTED

The Staff Association is calling for tenders for a second-hand Remington electric typewriter. Tenders should be writing and submitted in a sealed envelope clearly marked TENDER AND should be handed in to John Berrie, Department of Sociology (ext. 381). Inspection should be arranged with Dr. Denton (381) on Friday, March 17.
The University has the following
used motor vehicle for disposal by

1970 Volkswagen Kombi Van, Regis-
tered No. 899 VGG. Arrangements
can be made to inspect the vehicle
at the Department of Psychology,
Rankin Dr, Shortland, by tele-
phoning Mr. F. Atkinson on 685339.
Tenders should be forwarded to the
Purchasing Section, University of
Newcastle N.S.W. 2300, in a sealed
envelope marked "Tender for Vehicle".
The closing date is
17th March, 1978. The University
reserves the rights to reject all
tenders.

FOR SALE
22ft. Bluebird yacht in sound
condition. Recently slipped for anti-
fouling and painting. 4 berths,
aluminium spars and stainless steel
rigging. Two full suits of sails
(including big spinnaker), one brand
new price of $3,500 includes
Seagull outboard, 8ft. dinghy, boat-
cover, awning and mooring. Contact
Ross Telfer (Ayer's Rock, 444 or 59-4280)
for a test sail.

House - Waretta Heights - 5 minutes
from University. Spacious four-
bedroom plus study, separate lounge,
entrance foyer, family room and large
covered front patio. Two-car
accommodation under, plus rumpus
and workshop, elevated with easterly
aspect. Timber and tile construct-
ion with established lawns and
gardens. Ideal for lecturer with
family. $4,29000 neg. Ring owner
Stan Johnson on 673556.

Austin Lancer 1960. Good tyres,
radiator. Looks rough but reliable.
Not registered but has passed the
test ($1000 available). $100 or
will register (if deposit paid)
for $2400. Phone 685370 during
business hours.

1959 Cortina 240 saloon. Good
condition. New engine 4,000
miles. Recently slipped bodwork, reg.
to 6/78, $900. Contact John Lidgley
on ext. 759 or 51-3132.

Free Gift - rear window external
sun louvres to fit Datsun 180B.
I don't need them. First to
phone Greg Martin on extension
477.

Antique Chest of Drawers late
victorian. A reluctant sale
$250 or close to. Contact John
Lidgley, 417 Chuc, Room FA630.
Telephone Ext. 759 (Home 51-3132).

Steel Box Trailer. Handy size.
12 months. $120. Contact
extension 291.

House for sale: Kotara South. 3
bedroom weatherboard tile home
approximately 20 sqm. Large
carport, internal stairway to enter-
tainment area, workshop and
storage. Established grounds, garden
and barbecue area. Quality floor coverings
throughout. $44,950. For inspection
phone 57 2201.

LOST
Male's watch, stainless steel band,
green face surrounded with black.
Lost in the Squash Courts on
Tuesday 28th February. If found please
contact Maureen Patrick on ext. 591.

HOLIDAY HOME
House for large family in
Shoal Bay or Lake Macquarie area
for 34 days commencing Christmas 1978
or therabouts. Must have septic
system and fly screens throughout.
Ring 925716 early morning or late
afternoon.

A House for 12 months from August
1978. A modest, low rental, con-
venient house is wanted for a
West German postdoctoral visitor
from the Department of Biological
Sciences. The couple have one
child and suitable accommodation
is required in return for a guar-
antee of secure custody.
Contact Professor Boettcher on
Ext. 566.

DIARY OF EVENTS

FRIDAY, MARCH 10
1 pm Courtyard of The Union,
Jean Paul Bell and Co.
(Mimic clown)

7 pm Orientation Ball
10th March. Rock, Rat
Salad Band, Ronnie
Mcellissa, Roll Band,
Chicken Supper, four
bars, three dance floors.
Tickets at Union Agency, $5.

MONDAY, MARCH 13
6.30 pm Meeting of Students'
Representative Council,
SRC Office.

7 pm Wine and cheese evening,
Biology Society, Lecture
Theatre LG08, admission free.

THURSDAY, MARCH 16
1 pm Annual General Meeting,
Newcastle University Students'
Association, Courtyard, The
Union.

Annual General Meeting,
Biology Society, Baden
Lecture Theatre, R01.

MONDAY, MARCH 20
5.30 pm Meeting of Board of Man-
agement of The Union, Auchenryth.

TAXATION FOR SMALL BUSINESS OWNERS.
