NEW DEAN

Sculpture Exhibition

The Vice-Chancellor, Professor D.W. George, has announced the appointment of Dr. John Hamilton, M.B., B.S., FRCP (Canada), FRCP (London), as the next Dean of Medicine at the University. Dr. Hamilton will succeed Professor Geoffrey Kelberman, who has been Dean since the death in November, 1981 of the Foundation Dean, Professor David Maddison.

Dr. Hamilton, who is 45 years of age, is currently Public Health Specialist of the World Bank, based in Washington D.C., with project responsibility for East and Southern Africa and South Asia. Originally a graduate of the Middlesex Hospital Medical School, London, Dr. Hamilton joined the staff of the McMaster University Medical School in Canada in 1969 and was closely associated with the innovations in medical education there which were the subject of close examination at the time the Newcastle curriculum was being developed. He chaired the Student Admissions Committee and the Education Committee at McMaster, as well as being Coordinator of Gastroenterology services and Senior Consultant to the McMaster University affiliated hospitals. On leave of absence from his appointment as Professor of Medicine at McMaster University, he was Professor and Head of the Department of Medicine in the new Medical School at the University of Ilorin, Nigeria from 1978-81. In 1977 he was a Visiting Professor in Shiraz, Iran and at the WHO Eastern Mediterranean Region Teacher Training Centre and has a wide experience of public health issues in developing countries.

Dr. Hamilton has a strong commitment to the new approaches to medical education at the University of Newcastle and to furthering the close links between the Faculty, the community and the medical profession. He will hold a personal chair in his own discipline whilst Dean and is expected to take up duty at the end of the year.

Dr. Hamilton is married and has two children aged 10 and 12 years.

INSIDE: Appointed to Chairs
Dear Sir,

As a result of Resolution 346/82 of University Council "That Council agree in principle to meetings of Council being open to all members of the University."

I was under the impression that wheels had been set in motion to implement this policy. This resolution, may I remind you, was passed in December, 1982. Since that time four meetings of Council, or eight months have passed and still the status quo remains.

The reason I am writing is that my attempt to observe the August Council meeting was thwarted, when item 111.2 on the Agenda of that meeting, a report from a legal firm was not made.

The concept that University Council meetings should be open to all members of the University is a simple one, open and confident governing of this University would be demonstrated by such a move.

I therefore urge urgently that the delay in implementing this policy should cease, and action be taken. I shall be in the foyer at the next Council awaiting a result.

Terry Sleavin, SRC President.

---

**Summit Talks**

The Vice-Chancellor commended the Hunter Region Summit Conference, planned for the City Hall on September 29 and 30, at the September Senate meeting. He said he would be disappointed if University staff did not make a significant contribution to the meeting.

Following the National Summit in Canberra, the Premier of New South Wales, Mr. Wran, initiated a series of regional summit conferences in New South Wales.

---

**Honour to Geographer**

The theme of the Hunter Region Summit is job creation and job protection. A series of papers will be presented covering manufacturing, the public sector, social infrastructure, the coal chain, rural industries, tourism, commerce and retailing, education and training, finance and building and construction.

In these papers, many of them prepared jointly by business and trade union interests, an attempt will be made to survey all avenues of job creation, including the promotion of the region and the attraction of new investment, methods of job protection, technological change, and employment opportunities for disadvantaged groups. The conference will seek to update information on the forces operating in the regional economy, with a view to proposing an ongoing mechanism for a regional structure to play an important role in the improvement of our economy and employment prospects.

Further information about the Hunter Region Summit can be obtained from Mr. Karel Gazi, of the Hunter Development Board, at 26 2666.
Federal Registration Sought

Among the decisions taken at the Federation of Australian University Staff Association's annual general meeting in Brisbane was one to proceed with an application for federal registration as a union.

This University's Staff Association was represented by the President, Dr. Don Wright and the Vice-President, Noelene Williamson.

The meeting authorised the FAUSA Executive to seek to have its industrial matters dealt with by the Australian Conciliation and Arbitration Commission rather than a specialist tribunal.

Member associations are to be asked to ratify a proposal for FAUSA to affiliate with the ACTU. Action will only proceed if two-thirds of member associations vote in favour. The question will be dealt with at the UNSA Term III general meeting.

A lengthy resolution was passed in connection with overseas appointments. It seeks to have each university establish an Appointments Review Committee to which it would be necessary to justify the appointment of any person who was not an Australian citizen or person entitled to permanent residence.

FAUSA expressed strong opposition to the Queensland Government's requirement that all academics report on outside studies programmes and overseas conference trips directly and fully to the state Minister for Education. FAUSA is to campaign strongly against this infringement of university autonomy.

A comprehensive policy on sexual harassment was passed, it calls, inter alia, for universities to develop appropriate procedures for dealing effectively with such complaints.

Universities Council's Visit

Group pictured with the Vice-Chancellor during the Universities Council's visit on September 6 and 7: the Chairman of the Council, Professor N. Dunbar (second from left) and other members, Assoc. Professor J. Morrison (fourth from left), and Mr. John McIntyre (extreme right). At the back, the Vice-Chancellor and CTEC staff, Mr. C. Burgess, Mr. K. Flaherty and Ms. S. Calvert.

The meeting also adopted a policy on equal opportunity with respect to the employment of women staff and the encouragement of women students to undertake research degrees.

The National Executive for 1983-84 is: President, Adrian Ryan (Sydney); Vice-Presidents, Ian Lowe (Griffith) and Jo Gaha (Sydney); members, Neil Harpley (New South Wales), Penny Jools (Macquarie), Bill Noble (New England) and Jenny Strauss (Monash).

South Africa Today

Want to know more about a country seldom out of the news, South Africa? If so you can hear the Ambassador for South Africa, Dr. Denis Morris address Newcastle Group of the Australian Institute of International Affairs, on the topic South Africa Today.

The meeting will be held in the Staff House on September 28 at 8 pm.

Ambassador Morris, from Cape Town, was a barrister and Research Professor and Director of the Institute of Social and Economic Research at the University of Grahamstown, when he entered Parliament in 1973 as Senator. In 1980 he was appointed Chairman of the Constitutional Committee of the President's Council.

Donation

Owen Durkin, a Japanese II A student, has donated to the Japanase Section a collection of Japanese Literature as well as Japanese translations of Western Literature. The total number of volumes is 97 and the estimated value is $250, including freight. The books have been located in the Reading Room of the Department of Modern Languages for the use of staff and students.
The Vice-Chancellor, Professor Don George, has announced the appointment of two new Professors in the Department of Electrical and Computer Engineering at the University, following consideration by the Council of the report of its Selection Committee.

Professor G.C. Goodwin, presently an Assoc. Professor in the Department, will occupy the Chair vacated by Professor Brian Anderson when he moved to the Research School of Physical Sciences at the Australian National University.

Professor A. Canton, also an Assoc. Professor in the Department, will occupy a new Chair of Computer Engineering, the first Chair in Australian universities to be so-named.

The University of Newcastle was the first to offer a degree course in Computer Engineering and to receive full accreditation for it from the Institution of Engineers, Australia. The creation of the Chair recognises the importance of this rapidly-developing field of industrial and commercial significance not only to the Hunter Valley but Australia-wide, and has been made possible through financial support from the University's consulting company, TUNRA.

Professor Goodwin, 38, studied at the University of New South Wales, obtaining his B.Sc. in 1964, his B.E. degree with Honours Class I in Electrical Engineering and the University Medal in 1966 and his Ph.D. in 1970. He spent the next three years (1971-74) as a Lecturer at Imperial College, London, before taking up his lectureship in Electrical Engineering at Newcastle, being promoted to Senior Lecturer in January, 1976 and to Assoc. Professor in January, 1977. He has spent some time as Sub-Dean of the Faculty of Engineering and since 1979 has been Head of the Department of Electrical and Computer Engineering. He spent from July-December, 1978 as a Fulbright Fellow at Harvard University and from January-July, 1982 as a Visiting Professor at the University of Houston, Texas. In 1979 he won the J.R. Bainton Prize of the Institution of Engineers, Australia and in 1979, the Edgeworth David Medal of the Royal Society of New South Wales. He is a world authority in the field of Control Engineering.

Professor Canton, 37, studied at the University of Western Australia, graduating with a B.E. in Electrical Engineering with Honours Class I in 1968, and obtaining his Ph.D. from the same University in 1972. From 1969-71 he was a part-time tutor in the Department of Electrical Engineering at the University of Western Australia and in 1970-71, a part-time lecturer at the Western Australian Institute of Technology. In 1972 he was a Lecturer in the Department of Computer Science at the Australian National University. He joined the University of Newcastle in 1973 as Lecturer in Electrical Engineering and was promoted to Senior Lecturer in 1975, and to Assoc. Professor in 1977. In 1977 he was a Research Fellow at the University of Technology in Loughborough, United Kingdom, and has presented invited seminars in the United Kingdom, the United States of America and Italy, as well as within Australia. Professor Canton has an international reputation for his theoretical and practical contributions to Computer Engineering and recently organised the first Australian Computer Engineering Conference to be held in Newcastle.

**STAFF**

**Resignations**

Mr. B.R. Elkin, Computer Operator, Computing Centre.

Dr. G.J. Reynolds, Lecturer, Faculty of Medicine.

Mrs. M.J. Zarafa, Stenographer, Department of Commerce.

Miss L.A. Toscano, Machine Operator, Auchmuty Library.
This is Mr. Peter Stelgler, a University of Newcastle Chemical Engineering postgraduate student, who played for New South Wales Combined Universities against China Universities on the volleyball court in Newcastle on September 5. Of the 12 players in the Universities' side Stelgler is the only one from Newcastle.

Peter's volleyball interests started at Gateshead High in 1976 and he represented Newcastle under-17s that year.

In 1978 and 1979 he represented New South Wales in the Under-20 grade at the Australian titles in Geelong and Perth.

With Danis Jaunalksiis he started Gateshead Club and has been Captain and Coach of the team.

Stelgler is also a keen scuba diver and skier, which he fits in with his study.

University's Baseball Club's Fifth Grade team was successful in the Newcastle District Grand Final played on September 2. The team defeated Phoenix 11-9 at Boomerang Field, Mayfield West, in a tense and very close game. Congratulations also to the Fourth Grade team, which was a finalist, losing to Destroyers. Both of the University's teams finished impressively, coming from low down on the points table to finish the season very near the top.

University Captain, John Brian, batting against Phoenix in the Grand Final.

University's pre-season practice schedule is as follows:

Weekend Practices -- for the remaining two Saturdays (September 17 and 24) and two Sundays (September 18 and 25) practices will be held (weather permitting) on Saturday afternoons (1 pm) and Sunday mornings (9 am).

Weekday Practices -- normal weekday practices will be held on Tuesdays and Thursdays from 3.30 pm.

All cricketers intending to play for the University are welcome to attend.

W. Schultz, Hon. Secretary.

Richmond Report

A forum at the University has been arranged to provide information about the changes in health services for the psychatically ill and developmentally disabled proposed in the Richmond Report.

Organised by the Department of Community Programmes and the New South Wales Department of Health, the forum will be held in the Medical Sciences Lecture Theatre on September 24 between 9 am and 5 pm.

The organisers think it is vital that people fully understand exactly what changes are proposed, how and rapidly they may be implemented, and what their effects will be upon the people involved and their friends and families.
Conference Registrants

More than 30 professional engineers from the Hunter Region availed themselves of an opportunity to find out more about modern control theory and applications in the vacation. They attended a course presented by the Department of Electrical and Computer Engineering at the University for the first time.

The topics covered in the course included modelling of multivariable and nonlinear systems, computer control, multivariable and nonlinear control systems, adaptive control and on-line parameter estimation.

The course was illustrated by numerous industrial applications drawn from work done at the University of Newcastle and elsewhere.

Our photograph by Peter McLauchlan shows the registrants for the course with the course director, Professor G. Goodwin and Dr. David Hill (front row, fifth and fourth from the right).

HVTC back in Business

The Hunter Valley Theatre Company is back in business, its current production, of David Williamson's The Removalists, is the inaugural play of a short, sharp season lasting until next January.

The Removalists opened on September 6 and will run until October 1.

The production features one of Newcastle's leading actors, Vic Rooney, as Sergeant Simmonds, John Stone as Kenny and Katriona Foster as Kate, with Stephen Nantsou, Leigh Rice and Kerry-Anne O'Hearn also in the cast.

It is directed by Brent McGregor and designed by Eamon D'arcy.

The HVTC's second production, New Sky, is a one-woman show featuring Australian actress, Isabelle Anderson, who wrote the play. The story of a migrant's experiences is told by using masque and evocative music. New Sky was praised in Brisbane, where it premiered, and in Sydney, where it was performed by Nimrod Downstairs.

The third play is being written by Newcastle playwright, Peter Matheson, and is due to be performed from November 9 to December 10.

The play, The Marvellous Molly Morgan Show, is a musical and will feature the popular Castanet Connection and, in the lead role, Sydney actress, Kris McQuade.

A family show, The Cocky of Bungaree, will be performed at Fort Scratchley during the school holidays in January. Richard Tulloch and local actors will be featured in this production.

Seasons for the plays have been changed to include matinees on Saturdays and Sundays at 5 pm.

Each season also will include two free matinee performances for students, pensioners and unemployed people.

new branch formed

A branch of the Australian Conservation Foundation for the Hunter Region has been formed.

On September 24 and 25 the branch will be represented at the annual exhibition of the Society for Growing Australian Plants at the Newcastle CAE.

The branch will screen the film, A Voice for the Wilderness in the Riddell Theatre at the Newcastle Technical College on October 14 at 7 pm. The film features the charms and the majesty of the Australian rain forest. A case for the extension of Barrington Tops National Park so that a proposal to log rain forest will not go ahead will be put to those at the gathering.

The cost of attending is $2.50, or $1.50 for students and pensioners.

For further information about the Australian Conservation Foundation please telephone either Ernie Malpola (87 3470) or Ken Johnson (48 8495) after hours.

STAFF

Appointments:

Professor G.R. Kelman, Professor of Occupational Medicine, Faculty of Medicine.

Mr. B.J. Sweetman, Clerk, Bursar's Division,
Ironbark

To raise awareness of the complex interactions which must be considered when an estuarine ecosystem is managed, and a seminar on Ironbark Creek and the Hunter Estuary will be held at the University on September 30.

A site inspection of the creek on October 1 will be a follow-up to the seminar.

The Head of the Environmental Protection Division of the Department of Environment and Planning, Mr. J.W. Whitehouse, will be Chairman of the seminar and the distinguished and specialist speakers will include the Minister for Environment and Planning, Mr. Bedford, Mr. Peter Keane, of the National Parks and Wildlife Service, Mr. Shane Trengrove, of the SPCC, Mr. Geoff Hunt, of the Soil Conservation Service and Mr. Glen Evans, of the Department of Public Works.

The Association for Environmental Education (Hunter Region) and the Department of Geography are collaborating to present the seminar, which is titled Managing the Ironbark Creek Ecosystem. It has been sponsored by the State Pollution Control Commission as an Earth Week Project.

The seminar will be held in Lecture Theatre R02.

Social Change

Changing Australia is the title of a forum discussion to be held in the Purdie Room of the Great Hall on September 22 at 7.30 pm. The discussion will evaluate the newly released Social Justice Statement for 1983.

The SJS was produced jointly by the National Commissions of the Anglican, Catholic and United Churches in Australia and is regarded as a milestone in Inter-Church Cooperation.

Newcastle people made a significant input into the statement through a seminar. Goals for a Just Australian Society, held at the University in March.

The forum will address itself to the question of how individuals and groups can mobilise their work and attitudes to produce changes.

Offered by the Department of Community Programmes, Changing Australia will be introduced by Bishop Alfred Holland, Anglican Bishop of Newcastle, Bishop Leo Clarke, Catholic Bishop of Maitland, and Rev. Trevor Barrett, Uniting Church Chairman for the Hunter Presbytery.

University radio station 2NUR-FM has been offered a grant of $49,182 under the Commonwealth State Wage Pause Programme.

The grant will enable the station to employ two trainee producers and an office assistant to provide special programming for elderly people and unemployed youth.

The grant will enable the station to establish a studio facility in the city area, or equip a suitable vehicle which can be used at senior citizens' clubs, youth centres, schools and community centres throughout the region.

Mr. Anton Donker, the Station Manager, said the grant was in recognition of the importance of community educational roles of the station in the Newcastle area.

"The grant will enable us to provide better programmes for groups usually disadvantaged in mainstream media.

"It will allow us to involve many elderly and unemployed people in radio production and provide a worthwhile resource for the whole community".

Mr. Donker said he hoped that the grant would also allow an extension of the station's coverage of local current affairs and live local music.

The Japanese Section, Department of Modern Languages, is offering a Tea Ceremony demonstration for those who are interested in Japanese.

Date: October 7
Time: 5 pm to 6 pm
Venue: G41, McMullin Building.
Admission: Free

Those who are interested should contact the Japanese Section before September 29.

NEWTON-JOHN AWARD

Why not make a Nomination

It's that time of year again. Convocation is inviting nominations for the next recipient of the Newton-John Award.

The Award is made every year to a graduate of this University who essentially has demonstrated innovation or creativity in any field.

You are able to forward names of graduates whom you consider suitable for the Award to the Warden of Convocation, Mr. P. Miller, C/- the Secretary's Division.

Nominations will close on October 28.

The Japanese Section, Department of Modern Languages, is offering a Tea Ceremony demonstration for those who are interested in Japanese.

Date: October 7
Time: 5 pm to 6 pm
Venue: G41, McMullin Building.
Admission: Free

Those who are interested should contact the Japanese Section before September 29.
Gerontology Lecture

Established to honour the memory of Dr. Dick Gibson, former Director of the Royal Newcastle Hospital's geriatric services and Regional Geriatrician, the Dick Gibson Memorial Lecture will present an opportunity for people who provide geriatric services and members of the community to hear about developments in gerontology.

Mr. Bernard McKay, Secretary of the New South Wales Department of Health, will give the inaugural Dick Gibson Memorial Lecture on the subject based geriatric service which attracted international attention and in 1969 was awarded the OBE for his services to medicine and the community. His death in 1980 was a severe loss to the Hunter community.

Mr. McKay, due to his position in the Department of Health, has a comprehensive view of what is being done, and what is planned, to meet society's responsibilities to its ageing members. He was formerly Regional Director of the North Coast Region of the New South Wales Health Commission and Chairman of the South Australian Health Commission, of the New South Wales Government's Policy for Ageing People in the Medical Sciences Lecture Theatre on September 29 at 8 pm.

The memorial lecture has been established by the Australian Association of Gerontology in memory of the late Dr. Dick Gibson who as Director of the Royal Newcastle Hospital's geriatric services and, later, Regional Geriatrician, earned the respect and affection both of colleagues and of the community he served. In the late fifties, with the RNH team, he pioneered a hospital-

Mattara Poetry

The University's continuing support for the Mattara Spring Festival Poetry Prize is increasing the prize's reputation. There were 600 entrants in the 1983 Prize. To be one of the 23 whose work was published in the collection of best entries is regarded as very prestigious.

The collection has just been released under the title Instructions for Honey Ants.

The Hunter District Water Board, for the third year running, provided the bulk of the prize money ($1,000 this year) and gave other essential support.

Sydney psychiatrist Craig Powell, who has published four volumes of poems and has another volume in the press, received the main prize, $500.

Kerry Leves, of Sydney, was runner-up and received $200.

Professor John Burrows, of the English Department, gave support for the production of the book and Dr. Paul Kavanagh, a colleague in Professor Burrows' Department, organised the Poetry Prize and edited the book.
The gathering together in Birmingham of delegates from nearly 250 universities throughout the Commonwealth in August, 1983 provided an opportunity for widespread discussions not only around the Congress theme, "Technological Innovation: University Roles", but also on university affairs generally. Since the previous Congress in Canada in 1979, a major issue facing the members of the Association of Commonwealth Universities has been increasing restrictions on the free movement of students between Commonwealth countries through increased fees and reduced quotas. In his opening address, the Commonwealth Secretary-General, Sir Shridath Ramphal referred to the long and distinctive tradition of educational interchange which has been such an important feature of the Commonwealth and stressed the potential damage caused to national and international development, with long-term costs probably outweighing any short-term financial savings. The issue is a very relevant one to Australia today and goes beyond the boundaries of Commonwealth countries to other areas in South-east Asia with which we must maintain strong educational linkages.

On the specific matter of the role universities can and should play in technological innovation, the location of the Congress in Birmingham, the cradle of industry, was particularly appropriate. In his keynote address, Sir Adrian Cadbury, the Chancellor of the University of Aston in Birmingham and a prominent industrialist, drew lessons from the history of Britain's industrial revolution. He pointed to the reshaping now going on, with technical change forcing new industries into an environment experiencing a serious recession in its traditional heavy industrial activities. The parallel with Newcastle (upon-Hunter) and the outside world has not failed to be drawn. Sir Adrian stressed the contribution to innovation of the individual and the need to cherish the individual spark of enterprise -- "individuals promote innovation, and universities are involved with individuals". At the same time there was a need to break down the compartments which individuals build up around their own work.

"Universities have a role in influencing the outside world and the outside world has a role in influencing universities, particularly in helping them to determine the direction they intend to take. Maintaining the appropriate balance of influence in each direction is the task of all of us who are concerned with the future of universities and of the communities which they serve".

Parallel sessions of the Congress were devoted to detailed discussions under five different topic heads: "The Social Consequences of Technological Innovation"; "The Contribution of Universities to Integrated Rural Development"; "University/Industry Partnerships"; "The Development and Transfer of Technology"; and "Continuing Education". With the wide mixture of developed and developing countries present at the consultation, the differing perspectives presented provided a stimulating interchange of views, particularly with the gap between those countries tending to widen rather than narrow. The roles of technology and education in bridging this gap are of vital importance and the current review of Australia's foreign aid programmes is timely, with a need to direct our national efforts into the most productive and cost-effective activities. Many of this University's staff are becoming increasingly involved in projects in developing countries funded by the Australian Development Assistance Bureau or by other international aid programmes.

The proceedings of the Birmingham Congress will be available in the library in due course and should be of interest to all. In the meantime, some papers are available and can be borrowed from the Vice-Chancellor's Office.

D.K.G.

2NUR NEWS

For the second time in as many months 2NUR-FM programmes have won major national awards.

In the Australian Hi-Fi FM Radio Awards, organised by the Australian Hi-Fi magazine, 2NUR-FM won Certificates of Merit in the Music and Public or Community Service Categorises.

Mr. Phil Bates, 2NUR's Station Producer, was commended for his Dave Burland Special -- a special folk music programme recorded for the station during Burland's Australian Tour.

Ms Patricia Rhodes, Educational Producer, was commended for the programme Home Birth, which was part of a special community education series on childbirth entitled Wait Till You Have One of Your Own.

Mr. Anton Donker, the Station Manager, said that everyone at the station was extremely pleased with the result as the Awards are very prestigious within the industry. They are closely contest-ed by ABC, commercial and public FM stations throughout Australia.

The station also recently won an award for the Notable Trials series produced by History Lecturer Lionel Fredman in the Public Broadcasting Association of Australia's Golden Reel Awards.

Mr. Donker said that the awards gave recognition on a national level to the range and quality of radio services provided by 2NUR-FM to the local community.
The Travelling Film Festival will be in town again on September 23, 24 and 25. Films from Hungary, Spain, Russia, the United States, India and Brazil, which were screened at this year's Sydney Film Festival, will be shown at the Civic Theatre.

The films to be seen were among those voted the most popular of the films shown at the Sydney Film Festival last June. Six feature films will be shown in five sessions over the weekend. They are:

Daniel Takes a Train, made in Hungary by Pal Sandor, which tackles the actual events of the Hungarian uprising of 1956 for the first time.

Demons in the Garden, a Spanish film directed by Manuel Aragon, a comedy set during the Franco period.

Private Life, from Russia directed by Yuli Raizman, which deals with the despair of an executive who is suddenly retired.

Liquid Sky, from the United States, directed by Slava Tsukerman and rated "R", tells a story which combines elements of science fiction with the realistic details of decadent night-life in Manhattan.

36 Chowringhee Lane, from India, directed by Aparna Sen, tells the story of an ageing school teacher who lives in Calcutta and teaches Shakespeare to a class of school girls.

Pixote, Survival of the Weak, the film from Brazil which had to face censorship problems when the Sydney Film Festival planned to screen it. Pixote is a 10-year-old boy abandoned in the slums of Sao Paulo who has to turn to crime to survive.

A subscription to the Travelling Film Festival weekend costs an adult $22 and a student $18.50. Separate tickets can be bought for the Friday night double bill and every session on the Saturday and Sunday.
The annual election for one of the two student members of the University Council has begun. Notices have been sent out inviting nominations for the position, to be received by the Returning Officer not later than mid-day on September 26.

All students proceeding to a degree or diploma at the University are entitled to nominate candidates and to vote but students who are also full-time members of staff are not eligible for election.

If more than one valid nomination is received voting will take place on October 11 and 12 in the lobby of Level 2 of the Union between 11.30 am and 2.30 pm and in the foyer of the Auchenmuty Library from 5.30 pm to 7.30 pm.

- "A Short History of China", Gwenda Milston.
- Or similar texts. If you are able to assist please telephone Mark at 57 1832.

To Let

The Northern Rivers CAE is making the following holiday accommodation available to staff of other Colleges and Universities:

Tweed Villas comprising town houses, all fully self-contained, with a fully equipped kitchen, a lounge/dining area, two or three separate bedrooms, a separate bathroom and W.C., a washing machine and clothes dryer and an inground pool, or The Cottages comprising two three-bedroom Logan Units, also fully self-contained, with features identical to those of Tweed Villas, but the inground pool is not so handy.

The Prices:

Tweed Villas -- two bedrooms $15 per day or $95 per week, Deposit per week $40.

Three bedrooms $17 per day or $110 per week. Deposit per week $50.

Two by two bedrooms adjacent units $23 per day or $150 per week. Deposit per week $70.

The Cottages -- three bedrooms $17 per day or $110 per week. Deposit per week $50.

Within easy drive of Lismore is to be found some of the most magnificent mountain, rural and coastal scenery in Australia.

Tweed Villas and The Cottages are available for renting from December 17 until February 20, 1984.

Enquiries should be directed to Mr. Pat Mills at (066) 21 2267 or by writing to The Secretary, Northern Rivers College of Advanced Education, P.O. Box 157, Lismore, 2480.

For Rent

A comfortably furnished, old brick home with three large bedrooms in Lorn, Midland (30 minutes drive from University along New England Highway) is available for one year from November 30, 1983 while owner is taking study leave overseas. Rent negotiable: if the tenants are right the owner will happily forgo the opportunity to make a profit on the venture. Interested persons are requested to telephone Extension 383 or 33 2262.

Work Wanted

Experienced tracer is willing to undertake drawings for papers and theses at very reasonable prices. Interested persons are requested to telephone Donna at 58 5210 (after hours) or Extension 730.

Raffle Results

The winner of the Ski Club Raffle is Mr. John Kearney c/- RAAF Base, Willmotown. Congratulations John.
THURSDAY, SEPTEMBER 15

FRIDAY, SEPTEMBER 16, 8 pm

Public meeting, members of the Australia/China Council will speak about the Council's work and screen a film on Chinese Archaeology, The Entombed Warriors, Venue: Medical Lecture Theatre.

SATURDAY, SEPTEMBER 17

Seminar presented by the Department of Community Programmes entitled Lake Macquarie — A Lake Under Threat, Room: R04, Fee: $10, Time: 9.30 am to 4 pm.

Last night of The Stronger, one-act play by Strindberg, and The Burial Mound, verse play by Ibsen. Venue: Green Room, Great Hall, Cost: $2 adults, $1 students and pensioners, Time: 8 pm.

MONDAY, SEPTEMBER 19

Department of Education Staff/Research Higher Degree seminar entitled The Presbyterian Contribution to Education in New South Wales to 1866, Speaker: D.J. Bridgess, Room: W202, Time: 4 pm.

Department of Education Staff/Research Higher Degree seminar entitled The History of State Post-Primary Education in the Hunter Region from 1881, Speaker: K.A. Laffey, Room: W202, Time: 4 pm.

TUESDAY, SEPTEMBER 20

Department of Education seminar entitled Feminism and Freedom, Speaker: Professor M.E. Levin, Room: V101, Time: 3 pm.

Department of Mathematics, Statistics and Computer Science seminar entitled: A Spacecraft Software Design Standard, Speaker: Mr. D. Hoole, Room: V109, Time: 4 pm.

WEDNESDAY, SEPTEMBER 21, 4 pm

THURSDAY, SEPTEMBER 22

Film: Reds, Common Room, Noon.

Public Lecture by Professor Eugene Kamenka to mark the centenary of Karl Marx's death, Venue: Drama Theatre, Time: 8 pm.

FRIDAY, SEPTEMBER 23, 5 pm

Entertainment in the Bar by John Einbank.
