February 7, 1968, marked another important achievement in the building programme for The University of Newcastle on its Shortland site, when The Honourable C. B. Cutler, M.L.A., Deputy Premier and Minister for Education and Science, opened the new University Library Building (Stage One) at a ceremony attended by Librarians from interstate, the Newcastle and Hunter Valley areas and from other parts of New South Wales, as well as by representatives of Federal and State Governments, of the Department of Education, and of industry, and by other distinguished citizens.

Air conditioned throughout, Stage One consists of three floors of, in the main, large unbroken areas. The lower ground floor contains the staff Work Room, the Special Collections Room, and a temporary stack carved out of future staff work area. The ground floor contains the Serials Reading Room and the Reference-Catalogue Lobby, this being the entrance area and the link between Stages One and Two. The first floor is the Monograph Reading Room. Inside the building there is accommodation for 500 readers and 200,000 volumes. Outside Reading Areas, giving the opportunity for smoking and discussion, provide seats for up to a hundred readers.

It is anticipated that, within a few years, Stage Two to accommodate 600 readers and 200,000 volumes, will be built on the northern side of the main stairway. Stage Three, a stack tower with a capacity of 100 readers and 600,000 volumes, will rise ultimately above the mass of Stages One and Two.

To mark the opening of the Library, Malcolm Ellis, Esq., C.M.G., D.Litt., presented the University with a First Edition of The Voyage of Governor Phillip to Botany Bay, London, printed for John Stockdale in 1789. Dr. W. R. Laurie, of Laurie and Heath, the Architects responsible for the Library, gave a First Edition of George Bennett’s Gatherings of a Naturalist in Australasia, London, John van Voorst, 1860, and Mr. H. L. Wheeler, O.B.E., gave a sum of money to be spent on some special acquisition for the Library.
LAYING OF THE FOUNDATION STONE FOR THE CHEMISTRY BUILDING

On the same occasion Mr. Curlet laid the foundation stone for the Chemistry building between the Library and the Physics building. It is anticipated that the building will be ready for occupation by the beginning of the 1969 academic year.

Two Graduation Ceremonies — both on March 15 — were held in the City Hall, Newcastle, in 1968, when 275 graduates were admitted to degrees by the Chancellor of The University of Newcastle, The Honourable Sir Alister McMullin, K.C.M.G., D.Litt.

At the first ceremony the Vice-Chancellor, Professor J. J. Ancrum, delivered the Occasional Address. The Deans of the Faculties of Applied Science and Arts presented candidates for admission to degrees as follows:

CHANGE OF ADDRESS

The Secretary of the University requests that he be notified of the change of address of Graduates so that records and the mailing list for publications and correspondence may be kept up to date. The following information is desired:

- NAME (Block letters). Women who have married since graduation should also give their maiden names.
- DEGREE(S).
- YEAR OF GRADUATION.
- PRESENT ADDRESS.

The Secretary would also be pleased to receive information which would assist in ascertaining the present address of the following graduates:

CONVOCATION

At the third meeting of the Convocation of The University of Newcastle, held in the Main Lecture Theatre of the University on Friday, 3rd May, 1968, the Constitution for Convocation was adopted. It was decided, also, that the members of the Interim Standing Committee, should be re-elected as a whole as Standing Committee to hold office until the Annual Meeting in the year 1969 and that the present Warden hold office until the Annual Meeting in 1969.
