

Title	Alphaville (Alphaville, une étrange aventure de Lemmy Caution)
Director	Jean-Luc Godard
Date	1965
Area	Philosophy and technology
Theme	Technological dystopia
Plot Summary	Tough detective Lemmy Caution turns intergalactic agent to infiltrate the technocratic dictatorship of Alphaville. His mission is to capture or kill Alphaville's creator, professor von Braun, and destroy its dictatorial computer Alpha 60, invented by von Braun to control every aspect of Alphaville. Alpha 60 has outlawed love, tenderness and forms of self-expression. People showing signs of emotion are arrested and executed.
